About
ACC

Who
WE ARE

What
WE DO

For
INVESTORS

ACC brings to bear extensive resources while maintaining the culture of a great company

ACC has an advantage. We augment our performance by leveraging lessons learned as business owners. Our investors benefit from long experience in the operation of the assets we own. Unlocking value by delivering real-world solutions to reducing cost and increasing income is a key value proposition. Strong brand relationships allow ACC to gain valuable insights regarding locations, feasibility and operations.

- How We Do It -

ACC seeks to invest in companies and portfolios with valuable, often irreplaceable assets, that in the company's view can benefit from high barriers to entry, strong, stable cash flows and attractive fundamentals. In the wake of COVID-19, we are opportunistic in identifying distressed assets, companies and portfolios that produced solid results in the period preceding the crisis. We take an active approach to equity investing, seeking situations where significant value can be unlocked through balance sheet restructuring, operational improvements and strategic management. We partner with companies where the existing management is committed and capable to grow the business.

Where We Invest

ACC takes a buy-and-Build Platform approach to Private Equity. By acquiring platform companies with developed expertise in its industry, it creates a strong foundation on which to build additional value, through acquisition and consolidation.

Our Profession

American Colonial Capital's real estate professionals have a focused risk management philosophy with ability to leverage a global, multi-disciplined organization. Our Partners experience spans from highly structured and intricate capital transactions to management turnaround issues, divestitures and bankruptcies.

Our Commitment

ACC has a deep commitment to diversification within its portfolio. Our experts bring operational knowledge, analytical and thoughtful approach to every deal.

INVESTORS

WE UNLOCK VALUE

Our investment success comes through an understanding of where people want to live, work and play. By maintaining focus on intrinsic value, ACC can derive strong returns from either releasing, repositioning and rehabilitating existing assets or by investing in ground-up development. We apply a strategy-driven investment approach that revolves around three primary themes.

01. Hospitality

Award winning hospitality management services that increase profits & customer service. Maximizing profitability for our investors while elevating customer experiences. Hands-On Asset Leadership. Services: Operations, Accounting, Marketing, Sales & more.

02. QSR

Quick serve restaurants are the fastest dining experience. Offer drive-thru ordering, dining-in, and a growing number of delivery services. As a contrast, fast casual is considered slower than a true QSR, but faster than a traditional restaurant.
