## MORE INFO

- Air-free FEEDING: innovative silicone pouch collapses as baby drinks, cuts down on the ingestion of air to decrease painful gas, colic and Burps
- No straws, vents or valves: other bottles require vents and valves that allow air back into the bottle
- Modeled AFTER moms: designed to mimic the natural form and feel of mom for baby feeding, easy to latch and encourages proper tongue positioning
- Reusable: silicone pouches are reusable to produce less waste. For ages 3m+
- Easy to clean and washable: 100% dishwasher safe bottles, can be boiled, microwaved, frozen and sterilized

### LEDeng NURSH Reusable Silicone Pouch Bottle, Air-Free Feeding, 8

These are just fantastic. Could not be happier. Easy to clean, my baby hasn't had gas since switching to these. I love these bottles. You just have to be sure that the silicone is over the plastic part so they don't leak. Hoping they start selling the sippy spout in Canada soon

### LEDeng NURSH Reusable Silicone Pouch Bottle, Air-Free Feeding, 8

Great dupe of the brand alternative. I would definitely put these on baby registry. They're easy to assemble, even easier to clean and lets be honest they look super cute. I EBF my baby and he's only accepted this bottle. I introduced it at 8 weeks and it's the only one he would take. Still EBF, but at least I know he will accept a bottle during my dental appointment this week.
