BLEND: Hayaam is a woody, leathery fragrance inspired by love that makes you lose yourself. Infatuation embraces your every thought and your eyes dazzle with brilliance at every glance you share. You are powerless to resist. Hayaam is a premium unisex fragrance leaning towards males. It is a day fragrance and can be worn all year round.

EXOTIC: Dazzling citrus notes make your soul dance to the tune of your heartbeat and the radiance of your scent fills the room. The heat of clove from a faraway land adds an exotic spice to your soul as the fervour of your passion dances in your eyes. As your scent surrounds you with the ancient woods of the past and the smooth leather notes of the present, you know that you are lost in this love forever. The warm amber embraces you in its golden aura and whispers that this is the bliss you have

PERFORMANCE: Very long lasting with a great sillage rating. Olfactory fatigue, also known as nose-blindness, is the temporary, normal inability to

distinguish a particular scent after a prolonged exposure to it. It is a common occurrence , such as this one. When you think that the scent has faded, ask a trusted friend to confirm if they still smell it on you. You will be surprised of their affirmative response when you actually still can not. Great perfume, great seller!

This is one of the best traditional Oud perfumes out there, with notes of saffron and rose it just feels very rich and lasts for a long time. I got the package in perfect condition in the mailbox and also got a handwritten thank you note, which felt really awesome!

Superb Frangrance.....

This is a man's man fragrance with strong burst of saffron with elements of rose at the heart , and the base comes on with an sophisticated Oud/Vanilla sensual vibe. Superb for date night and winter months.
