#### Silent, but deadly

For the price this mouse is quite good. The top is soft touch material, and the buttons have very quiet click sounds. I also like that the mouse goes to sleep when not in use, and you need to click to wake it. That way accidental table bumps or cats jumping on your desk won't wake your PC.

#### extremely quiet

Got a surprise when opened the box. Nice feeling of touch. Very quiet in use. light and smooth. Hope it works well with battery
