【Bright Solar Garden Lights】 -- our solar lights outdoor consist of 10 LED lights which means the illumination range and effect is bigger and brighter; Made these outdoor garden lights could be easy to decorate and add a delightful glow to your driveway, pathway, sidewalk and other areas of your lawn, yard, patio, garden or flower beds;

【High Level of Waterproof】 -- IPX65 waterproof grade, built in external waterproof switch, instead of pinhole switch; Advanced lighting override material with stainless steel lamp shell, suitable for outdoor use, no worries about rain, snow, frost, or sleet;

【Turning On / Off】 -- Auto on at night and Auto off at sunrise, the built-in sensitive light sensor detects light correctly, the solar light will automatically turn on as soon as the lights go; Auto switches off when it gets light. (Please make sure to "turn on" the switch before use)

【Easy To Install& Durable Design】 -- Each light has two spikes, Turn on the

switch under the cap and push the spikes into the soil, stone or bricks with the spikes, you can also put it on the deck or stairs without spikes. The disk lights are even strong to withstands inclement weather and 100KG standing body; High quality PC Lamp shade with high light transmission rate, makes the disk light output effects are more textured;

【Customer Service】 - If you're unsatisfied with this item for any reason, Please contact our for help, we'll immediately help you solve the problem within 24 hours.

Great value and quality

These lights are amazing. I love how easy they were to out together and how they are flat in the ground. They are very bright and work well compared to other lights I have bought. I like that you get eight in a pack. They look great along a walkway or along your deck.

Absolutely Love!

I absolutely love these lights! I previously purchased other solar disks that I thought were great, but after receiving these lights they are my favorite. They light up my entire walkway! They are super easy to install. All you do is put the stakes together and put them on the disk and click the on button and they are ready.
