- This axe head is hand-forged and made from Swedish axe steel in a foundry that has been in operation since 1697.
- As part of the production process, the steel is struck multiple times thereby increasing its density and resulting in more durability of the axe.
- The head is constructed in such a way that there is a tempered zone designed to hold a very sharp edge even after many sharpenings.
- Each axe comes with a traditional leather protective sheath that is embellished with some unique Swedish decorative elements. The axe is shipped in its own storage box and comes with a detailed users manual.

Victim of axe hipster reviews, a high price doesn't translate to better quality.

Reviewed in the United States on October 28, 2018

Verified Purchase

Nowhere near worth \$85. The head was misshapen near the top of the blade, and it looks like whoever did the grind noticed it and decided not to grind that area... probably because it would snap the top part of the blade right off. The head was also seated crooked onto the shaft. Poor quality assurance for such "prestigious" tool maker. My plastic Fiskars x7 at the \$20 price point feels like a better quality tool.

Do not buy

Reviewed in the United States on January 16, 2019

This axe was awful. The edge was asymmetric. The axe head itself was asymmetric. It dulled very quickly.

The blade chipped in a single week of use. I only took the axe out throwing twice! I threw it in my axe throwing gym. There is no excuse for this quality of work.

DO NOT BUY!!! I returned it.

Decent hatchet, was hoping for just a bit more

Reviewed in the United States on March 23, 2019

Verified Purchase

I uploaded a number of photos, from when I first got the hatchet, so you can really see what my review might leave out. With that said, and as others have commented as well, the finish on the head it self could have been much better. For a mid-to-upper end hatchet, it looks as though the head was quickly process through their production operation. Now with that said, this criticism may be cosmetic only. I will update the review if the function is lacking in any way. I'm not disappointed with the purchase, just wanted a bit more...

Hult Bruk Tanaby hatchet review

Reviewed in the United States on March 20, 2019

Verified Purchase

The hatchet arrived in good shape packaged well. It hatchet appears to be well made and has good balance. It is not what I consider sharp, but I should be able to put a super sharp edge on it fairly quickly. I'm happy with the purchase as it is a well made hatchet and should serve me well. It also comes with a sheath and a info book.

Great quality

Reviewed in the United States on October 13, 2019

Verified Purchase

This is built of quality metal, professional craftsmanship and built to last. It can chop down a good size tree for firewood and fits great in your pack. The sheath is useless and would be better if it had a belt loop, but don't let that stop you from buying it because other are made that work better.

Good axe for the money

Reviewed in the United States on April 26, 2020

Verified Purchase

This axe is beautiful. What most reviewers don't understand is that this is a hand forged axe. There are going to be small blemishes and imperfections this is normal when forming high carbon steel. It's sharp but as always when purchasing an axe there is time and effort that goes into preparing it. On the users side. Nothing a little boiled linseed oil, a cup of deisel fuel, and a sharpening stone won't fix. It is sharp it cuts with ease. Far better than the eastwing I had

Great Hatchet - Worth the price

Reviewed in the United States on June 11, 2018

Great for the size. Came incredibly sharp on arrival and have had phenomenal results so far. I may eventually upgrade to something a bit bigger, but the quality and application for this hatchet are not to be questioned. Very happy with my purchase.

Excellent all purpose small axe

Reviewed in the United States on July 26, 2016

Verified Purchase

Amazing quality for the price. This is a serious tool. Quality and construction of the head is superior. Very sharp and easy to sharpen. Small splitting jobs or any other chopping chore short of felling a large tree...this great little axe will do it all. Well balanced with an well shaped and functional design. So good I bought a Hults large splitting axe. You will not be disappointed in this professional quality manual tool.
