

The Stone Soup Leadership Institute's Young Heroes Fund

**Grant Application
By Invitation Only**

The Stone Soup Leadership Institute's Young Heroes Fund provides financial support, mentors, and training to scale youth-led climate change/sustainability organizations to engage millions of people to rebuild the planet for our children's legacy. Youth leaders are featured in the book *Stone Soup for a Sustainable World: Life-Changing Stories of Young Heroes*. Given the urgency of our times, we will provide grants to a select few to scale their organizations to reach millions of others. The Institute serves as a fiscal agent for these start-up organizations. FID# 31-1594004.
