★★★★☆ **ITS A MIRACLE!!**

Reviewed in the United States on December 14, 2018

Color: BLACK | [Verified Purchase](#)

I'm one of the very, very few people who cannot use the apple air pods. No matter how hard I try, they fall out of my ear in less than a minute. I thought I would try a different brand, and when I put these in my ear, they fell out within seconds. I was about to give up, pack up the box, and send it back, but I decided to check out the instruction manual in case i was doing something wrong. I'm so happy I did. Turns out there were 4 sizes of plastic ear caps included with the earbuds. On my third try, the second smallest ones, I felt how i imagine Cinderella felt when she tried on the glass slipper. They were perfect and no matter how much I jumped up and down or shook my head, they stayed in place!

The quality of sound is impeccable, nice highs and lows, with a decent amount of bass. Once I found the right match, the fit was extremely comfortable.

I love these headphones, they have already changed my life for the better!

★★★★★ **Awesome Quality at Great Price**

Reviewed in the United States on December 6, 2018

Color: BLACK | [Verified Purchase](#)

I was thoroughly impressed with the Tozo T10. The packaging was incredible, the build quality is top notch, and an amazing set of features for the price even if the price was twice as high. Wireless charging, IPX8 waterproofing, high quality 8mm sound driver, and bluetooth v5.0 are just a few of the high end features the T10's have to offer.

Pairing them with my phone was too easy. All you have to do is take them out of the charging case and they are ready for pairing (just a quick note make sure you choose TOZO-T10-R, the right earbud is the primary). The bluetooth v5.0 mean they have a stronger connection and longer distance. I can leave them in my backpack and I am still connected up to 30 feet away. The clarity of the highs and the richness of the bass are of the quality level of the highest end earbuds. I have personally taken these into the shower, I wasn't actually showering at the time, both of the earbuds and the case itself are extremely water resistance. I was pleasantly surprised to find that I could use my T10s for a little over four hours and the charging case is good for four full recharges of the earbuds. Finally, I have to say the Qi wireless chargeable case is very handy. I can set my phone and earbud case on my Qi charging pad and I'm good to go. If you [Read more](#)

★★★★★ **TWS done right**

Reviewed in the United States on January 22, 2019

Color: BLACK | [Verified Purchase](#)

Every Christmas I usually have enough personal money to make an impulse purchase, usually in Electronics. This year, I wanted to upgrade the \$20 pair of totally wireless sound (TWS) earbuds I had. They were good, but needed better sound to make them perfect.

With a budget of about \$100, I started off looking for something good from a known manufacturer (like Samsung, Jabra, etc.) There was just nothing out there in my price range. I couldn't see myself paying that kind of money from a brand I didn't know, so I started looking for a cheaper model. For around \$50 I found 3-4 that looked good and reviews were good enough. I liked Anker's other Bluetooth earphones, so the Soundcore Liberty Lites were considered. With the good reviews and previous good ownership of Monoprice products the Monoprice IPX4s were looking good, too.

Due diligence and a desire to be able to use one earbud at a time drive me to search Amazon's best rated under \$50 TWS sets, and Tozo looked pretty good. While the buds are labeled L and R, they are both the same, and can be put into either ear. They come with 4 tips, and for the first time, I'm not using the largest [Read more](#)

★★★★★ **No Volume Control**

Reviewed in the United States on July 19, 2019

Connected these to my fire stick, which is why I purchased it so I can watch tv while my husband is sleeping. The volume on the ToZo was extremely loud. I wasn't able to adjust it not even with the tv or fire stick remote. The volume can only be controlled when connected to your phone or tablet. I bought this on Prime Day thinking I was getting a good deal and Paid \$49.99 with \$3 off but found out other purchase this for around \$25/\$30. Two stars because they work fine when connected to a phone or table but that's not what I purchased them for.

UPDATE REVIEW...

This is an update. TOZO Customer service is wonderful they reached out to me to rectify the issue. They issued another TOZO Bluetooth. The previous one works great with my devices just not with my smart tv. Haven't tried the new one yet but Will keep you posted. Thanks TOZO

★★★★★ **Great Sound, Listening Range and Price. Overall I'm very impressed with the TOZO T10**

Reviewed in the United Kingdom on April 2, 2019

I upgraded from Tozo T8 to the T10 and also own a pair of wireless earbuds from a well known Brand associated with fruit, and have to say I am very impressed with the TOZO T10 in comparison to the other that I own.

First of all, They are great value. The set up was very straight forward and connected to my devices bluetooth in a few seconds. When you pick the earbuds up out of the case they automatically attach to each other and have useful light indicators. The case also has light indicators to show the charge level which is

very helpful.

★★★★★ **Surprisingly good set of earbuds! Impressed!**

Reviewed in the United Kingdom on August 20, 2019

Color: BLACK | **Verified Purchase**

I bought these to take on holiday to Spain, I intended lots of beach and poolside music listening and didn't fancy the wires or bulkiness of my existing headphones. In ear and wire free was a must and having compared many of the headphones on Amazon I ended up choosing these.

I wasn't expecting much for the price paid, but first impressions were very positive. The packaging is excellent and suggests premium quality. The charging case is much sturdier than I imagined and the earbuds themselves smaller than I imagined (in a good way).

I used the earbuds and charging case daily whilst on holiday for anything from 1-5 hours at a time without any issue. The sound quality is surprisingly very good, a much better bass than I was expecting. Everything seemed nice and clear. I never intended to keep using them daily on my return from holiday, but I have. They are fine when walking too, I expected them to fall out but they don't. I'm not sure I'd trust running in them though.

★★★★★ **Perfect for the hot tub :-)**

Reviewed in the United Kingdom on February 19, 2019

Color: BLACK | [Verified Purchase](#)

So I bought these headphones for a single purpose - use in the hot tub (I already use AirPods for running/exercise and some noise-cancelling Bose headphones for when I'm at work)... I have to admit they were a bit of a shot-in-the-dark and I honestly wasn't expecting much from them, especially as I used to have some cheaper headphones for running that were terrible, and really put me off the 'budget' price point.

Now these are clearly not AirPods or Bose standard, but frankly for the price they sound excellent. Crystal clear treble and more than enough low-end for me... using my go to track (Wilderness from Clannad's Anam) they have good definition and far exceeded my expectations.

They are much larger than AirPods, and you MUST ensure they are correctly positioned (with the right-sized rubber ends on) or the sound quality drops dramatically - but after a few minutes of getting this right (as a one off) they more than meet the requirements. The size isn't really a hinderance to them, because it lets them sit in the ears quite comfortably - but your mileage might vary (with ear size).
