

At the end of the day,
the goals are simple:
safety and security.

BIOZONE by Viverra Medical Technologies works in 3 parts

**PRODUCT FEATURE 1
SANITIZE IN SECONDS**

BIOZONE uses broad spectrum, hospital grade Organic Sanitization Vapor "OSV" disinfectants to sanitize an entire person, including feet, in seconds.

**PRODUCT FEATURE 2
FACIAL RECOGNITION**

State-of-the-art imaging method provides enhanced security for identification and verification. Giving you advanced control and only allowing those meeting your health requirements access to your building and business.

**PRODUCT FEATURE 3
TEMPERATURE CHECK**

Thermal imaging through BIOZONE quickly checks for safe and healthy temperature, set automatically with no calibration required. Reduce the risk of workplace transmission with employee temperature screenings.
