Product description

Our magnetic knee braces are crafted using 3D knitting technology to provide superior support and comfort without compromising your mobility. The soft elastic and breathable compression fabric maintains joint stability and the anti-slip silicone gel strips keep your sleeve in place regardless of the activity.

To prevent a slide, we use double-lined anti-slip silicone at the top of our knee sleeves. Besides, we adopt four-way elastic fabrics which can keep sleeves close to the knees. So, with our sleeves, there's no need for you to readjust their position when you exercise.

In knee pain sufferers, our compression braces worn either full-time or just at night can bring dramatic improvements, even for sufferers with very severe symptoms.

Our Copper Knee Sleeve Compression is suitable for a variety of indoor and outdoor activities and training: Workout running, badminton, golf, gym, mountaineering, recovery after surgery .etc.
