

Vision

BOND is founded on the belief that families are the foundation of our nation, parents are the center of each family, and a mother is the heart of a single mother household. Experience shows us the BOND a daughter has with her mother is crucial to her success.

Through mother to mother mentoring, mother-daughter programming, and cultural experiences mothers and daughters will learn, grown, BOND together. These experiences will build each mother and daughters capacity to lead generations of women to come while ensuring every single mother household will have access to the tools and supports to build strong positive mothers, daughters, and families.

Programming

BOND provides support and opportunities for mothers with daughter's grades 6 -12 to build a strong mother-daughter relationship along with personal, educational, professional development, and cultural experiences to address a full spectrum of challenges faced by single mothers.

Through active engagement with one another and the Baltimore community BOND mothers and daughters gain:

- Communication Skills
- Socio-emotional supports
- Academic Supports
- Cultural Development
- Character Development
- Service Learning
- Arts Exposure
- Health and Fitness Education
