- Adjustable-height tripod made of lightweight aluminum; weighs just over a pound
- 3-way head allows for tilt and swivel motion; portrait or landscape options
- Quick-release plate helps ensure fast transitions between shots
- 3-section, lever-lock legs for easy height adjustments; zippered storage bag included
- Measures 16.5 inches (collapsed); extends up to 50 inches
- Not recommended for use with heavy, high-end DSLR cameras (total equipment weight should not exceed 4.4 pounds)

PRODUCT DESCRIPTION

50-Inch Lightweight Tripod with Bag

Capture vivid, professional-style photographs with help from this 50-inch lightweight tripod. The adjustable-height tripod makes it easy to achieve reliable stability and score just the right angle when going after that award-winning shot. A fun and useful camera accessory for both novice and professional photographers alike, the handy tripod accommodates a wide range of digital, video, and still cameras and comes loaded with user-friendly features.

Details

Suitable for digital, video, or still cameras

Extends up to 50 inches high

Lightweight aluminum; weighs just over a pound

Quick-release plate

3-section, lever-lock legs for easy height adjustments

Zippered bag included

3-Way Head

The tripod's three-way head allows for ultimate versatility. Easily change the orientation of the camera from portrait to landscape--and almost any angle in between with the handy tilt motion. Turn the knobs to secure. The tripod also allows for full panoramic possibilities with its 360-degree swivel function.

Quick-Release Plate

The tripod's quick-release mounting plate makes it easy to remove your camera from the tripod, helping to ensure fast transitions between shots and for quickly moving from location to location.

3-Section, Lever-Lock Legs

Uneven terrain? Need to frame the shot just so? The tripod effortlessly accommodates custom set-ups thanks to its lever-lock legs, each with three extendable sections. The leg height can be individually adjusted as needed or all three legs can be raised to the full height of 50 inches. Levers securely lock the legs into place and release smoothly for easy gliding to the desired height. For added convenience, an extendable gearless center post promotes easy movement and adjustment, and rubber feet help ensure stability on different surfaces.
