1. Accurate and Reliable: This pulse oximeter uses infrared sensor to measure, and effectively reduces external interference with multiple shading design. These technologies effectively improve the accuracy and the measurement results are reliable.

2. For Sports and Aviation Use: Suitable for sports enthusiasts and anyone interested in measuring their SpO2 and pulse rate. Used before or after exercising and remain stationary while testing your pulse and SpO2.

3. Monitor Cardiopulmonary Function: This oxygen monitor could measure and display SpO2, PR and

designed, easy to use. Works for adults (weight: 40-110 kg).

4. Lightweight and Portable: This SpO2 meter weighs only 50g with 2 batteries, and the 1 lanyard attached, lightweight and portable. Size is 1.18 x 1.18 x 2.2 inches.

5. Cell Cover - Anti Falling Design: The battery cover adopts the anti falling design to eliminate the possibility of falling during exercise. Using this fingertip oximeter, you could focus on the exercise much more.
