EVVACAL OVEN MITTS,EXTRA LONG HEAT-RESISTANT OVEN GLOVES,1 PAIR OF SEAM COTTON LINING AND RING-STYLE FUN KITCHEN OVEN GLOVE SETS FOR COOKING, BAKING, MICROWAVE OVEN, GRILLING AND GRILLING (YELLOW)

🌿[356°F heat resistance and extra long length]: double eco-oven gloves are thicker and longer, designed with high heat resistance, the highest heat resistance is 356°F/200°C, 10 inches long length protection Take your forearm out of the hot oven or pan. It can also safely and comfortably dispose of hot kitchen utensils from the oven or microwave without being burnt.

🌿[Slip-resistant handle and hanging ring]: Fun adult glove oven gloves can provide a stronger, non-slip handle that can be held firmly when handling kitchen utensils. Each oven glove has a lanyard for easy hanging and storage, so it can be hung on a cabinet or grill. Hanging oven mitts near the stove for baking means they are always ready.

🌿[Durable and easy to clean]: Non-slip long gloves can be machine washed or washed with warm soapy water and dry safely. The soft stitched cotton lining will not fall off after washing and can be reused. Cloth gloves are more environmentally friendly and more hygienic.

🌿[More comfortable and more flexible]: The oven gloves are made of super soft cotton lining and high-quality insulating fillers, which can withstand high temperatures and repeated use. Super grip provides better control and stability to protect the wrist and forearm from injury.

🌿[Multi-purpose]: All compound oven gloves are suitable for indoor cooking, baking, grilling or outdoor grilling, take out the baked pizza or cast iron frying pan from the oven, take out the pan or pot from the top of the stove, and take out a bowl from the bowl To microwave the soup, raise the lid, heat the plate or put the cutlery on a beautiful table. Items on the grill, these oven gloves are a must.

PRODUCT DESCRIPTION

Reasons for Choosing this Oven Mitts

356°F Heat Resistance

The double eco oven mitts are thicker and longer designed with high heat resistance and heat resistance up to 356°F/200°C , 10-inch extra-long length protect your forearms from a hot oven or sheet pan.

Non-Slip Grip

Oven mitts provide a more robust, non-slip grip that can be held securely when handling the kitchen utensils.

Hanging Loop

Every oven mitts comes with a lanyard for easy hanging and storage, so they can be hung on the cabinet or grill. Hanging oven mitts for baking near your stove means they'll always be at the ready.

High Quality Lining

Oven mitts for baking are lined with super soft cotton and premium insulation filling for its ability to withstand high heat and repeated use.

Cotton Lining

The cotton lining is softer, more comfortable and more flexible, suitable for most adults and children's hands.

Lanyard Design

The cotton lining is reinforced by double layers, which can be accurately sewed and can be cleaned in washing machine and drying machine without fear of damage.

Heat Resistance and Non-Slip

Oven mitts with high heat resistance and resistant to temperatures up to 356°F/200°C,you don't have to worry about burning the gloves at high temperatures.

The surface material of this glove has anti-skid function, which enhances the grip and can easily pick up smooth ceramic utensils. High quality cotton lining, more resistant to high temperature and more durable.

Attention should be paid to cleaning :

- 1.Wash in cold water
- 2.Lay flat to dry
- 3.Do not iron
4. Do not bleach
