high	3 Cm
volume weight	42.99 g

[Super Bright Flashlight] This powerful flashlight uses the newest CREE XHP50 LED with a brightness of up to 3000 lumens. It can be easily illuminated over the length of about three rugby fields. It can even focus on objects 1700 feet away in the dark. It is about 4 times brighter than ordinary T6 flashlight. Very durable. The torch light is super compact, the length is only one palm. Very convenient to carry and operate.

£ [Battery power supply and smart battery display] One 18650 or 26650 rechargeable lithium ion battery can be used. Built-in USB charging port, waterproof and dustproof. You only need a USB data cable (included) to easily charge the LED flashlight. There are four smart power indicator lights above the flashlight switch, allowing you to clearly understand the battery status. Remind you to charge in time.

Ç [5 lighting modes and telescopic zoom] This tactical flashlight can easily change 5 lighting modes (high/medium/low/frequency/SOS) by pressing the light switch. Pull the flashlight up and down to adjust the beam range from wide to narrow. The spotlight can project a strong beam of up to 1700 feet. Floodlights are used to illuminate large areas. You can adjust the brightness mode or focus range according to different purposes.

£ [Value] You will get a bright high-lumen LED flashlight + 1 18650 battery plastic tube + 1 AAA battery holder + 1 18650 rechargeable battery + 1 USB wire + 1 lanyard. Each flashlight has a one-year replacement warranty. If you have any questions, please feel free to contact us. We will resolve the issue within 24 hours. If you want to use it for a longer time, you can use the 26650 battery. Please remove the plastic film from the battery pack before the first use.

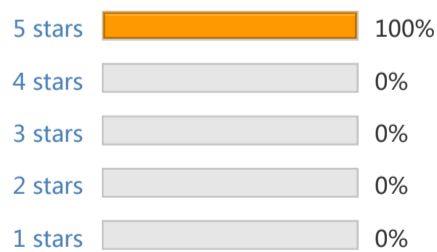

[Waterproof and durable] IPX-67 waterproof rating, suitable for extreme weather, such as storms and

meters). very durable. (NOTE: DO NOT put the flashlight in the water)

LED FLASHLIGHT

The flashlight is great. In terms of workmanship alone, it is indeed much better than the two cheap flashlights I bought in China. Especially the feedback power of the switch feels very high-end. Generally, the first thing that the flashlight breaks is that the switch contacts fail. Dare to use the 7-year warranty that the materials must be sloppy. There is also a long shot that feels good, and it is not too prominent compared with the domestic ones. The close shot has a very wide angle due to the special patented floodlight, and the advantage is that the brightness is very uniform.

LED FLASHLIGHT

There is no doubt that this flashlight is one of the best flashlights. Small and light, but enough for outdoor use. Made of top-grade aluminum, it seems to withstand a lot of abuse. Powered by a single 18650 lithium ion battery or 2ea. CR123 batteries provide up to 1000 lumens. The service life is 50,000 hours. It has temperature and polarity adjustment functions, and is 8 waterproof. There are two operating modes-tactical mode and outdoor mode-with multiple brightness levels including tactical.

Description	Reviews	Shipping & Payment
2021-01-29 13:53:40		that the price and features are great! The brightness is good for what you pay. This is not "incredible", but it is still worth every penny. The advantage of having a low-power bearable lamp like this is that it has a much longer life than a high-power lamp, which only costs \$80. One thing I really like is the illuminated button to show the battery level. The clip is a great addition. This also includes the battery, which is another advantage, which gives me reason to rate this 5-star. Don't expect this kind of lamp to bring \$80 performance, but for this price, you can't go wrong! Thank you.
