

PROTECTIVE VENDOR REFERRAL *Network*

For almost 100 years, Protective Insurance has served the trucking community. Customers have trusted us to help protect their business because of our expertise in the industry.

Protective's loss prevention team strengthens our clients by helping them understand and manage risks, reduce losses and control costs. Reducing risks and accidents is not only critical to a company's bottom line, it also helps employee retention by being a better and safer place to work.

How it works

We have partnered with a network of vendors to support regulatory issues, vehicle technology, training and other safety needs.

Our goal is to make the vendor selection process easier for our insureds. There are hundreds of options available in the marketplace today. We have done the homework and narrowed the list to a group of companies that are leading the market, share our commitment to responsive service and share our philosophy of making the roads safer for us all.

These vendors are offering a discount for qualified Protective customers. Ask your Protective territory manager about our Vendor Referral Network and let us help you choose a safety-focused vendor to enhance your fleet.

CONTACT

Talk with your Protective territory manager regarding your interest in learning more.
