#### WIRELESS CHARGER

The wireless charger works well. The charger comes with a USB-C cable, so we tried using the USB-C adapter that came with th e Ipad Air 4 and Pixel 4. The Pixel 4 adapter is only 5V\*3A and can charge the Pixel 4 at ~600 amps. Using Apple iPad 20W char ger, Pixel 4 charges at twice the speed. We also used two adapters to successfully charge the iPhone X. This charger has a nice magnetic function, so you won't lose the charging connection by tapping the phone. Magnets work well on Pixel 4, but not at all on iPhone X (we have protective cases on iPhone X). The charger is very small and portable, and should be compatible with any USB-C adapter you already have.

# WIRELESS CHARGER

The product arrived the next day. Very compact design, easy to carry. Charge the iPhone faster than the original charge old iPhone well. I am very happy with the purchase.
