### PET TOY

The dog likes it. It's dangling in the house for people to accompany it to play. On the grass outside, fall farther, the dog likes to run and pick it up, which can help the dog exercise.

### PET TOY

Dogs like to play tugs with balls, but this benefits him a lot because they are difficult to catch. This handle is very suitable for pulling between dogs and people. My dog does not understand it and likes to hold the leash part. This is not a product malfunction, but a malfunction of my dog. After the strap is loosened, I may be able to tie it back with a rope.
