PIGGY BANK

My child; 3 and 7, love project. This is perfect for them. They must repaint and then repaint until all the paint has been used. Th is is the success of a project-it's easy, it has a lot of paint, it still looks like a pig after completion, yes, it can actually be used as a piggy bank afterwards. There are many pains of different colors, and some sparkling pains (everyone likes that part). Before t he paint dries, I washed the pig once and asked kidski to paint it again!We have not tested how well ceramic pigs can stay on t he stone floor during the drop test.not too good. The pig is really small-only a few inches at most. At least for us it doesn't mat ter.If you want to create an heirloom, maybe/not. If you are looking for something fun, fast and easy, and can benefit from littl e supervision, then this is a great one-off project.
