**GENERATOR RENTALS**

No matter your power challenge, Imperial Restrooms can aid your emergency outage, power a planned project, help with a temporary surge, or simply bring power to supply our other rental products. Whatever the size of the job, we have generators fit for duty.

**GET POWERED WITH OUR RENTAL POWER**

We only work with top-of-the-line generators that use advanced technologies to reduce spill and emissions. Our generators are rugged, yet sleek and compact in design. Quietness and safety are key features of all our generator units. If one unit won't do, we can synchronize multiple generators to maximize output and maintain self-sufficient back-up operability.

**Emergency Generators for Temporary or Long-Term Portable Power**

Imperial Restrooms' energy specialists and mechanical technicians will configure power sources promptly and monitor their performance for continuous, reliable service. Downtime is not an option and the faster you call us, the sooner we can have you back in action.

Imperial Restrooms' generator units:

- ★ Are built tough to handle any need, from parties in the park to industrial construction
- ★ Have a heavy-duty, light weight compact frame which minimizes the space needed for operation
- ★ Contain over-sized fuel tanks for long, uninterrupted operation
- ★ Includes a super quiet muffler which allows for operation in all conditions

Contact us today to reserve your generator.
