ABOUT US

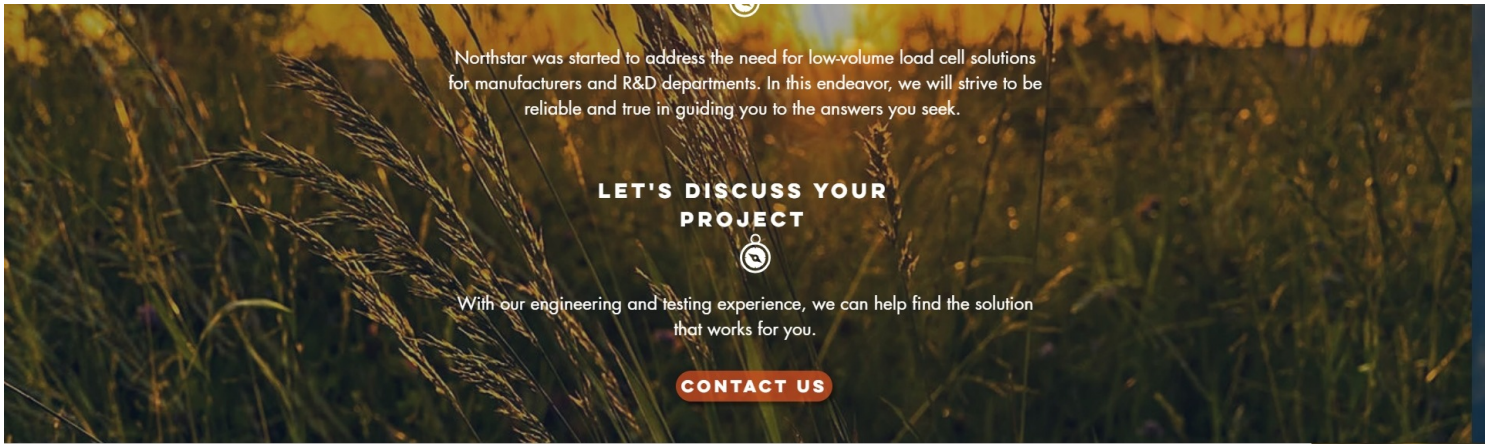

I'm Dan, owner and operator of Northstar Load Cell & Scale. I have a natural aptitude for the art and science of load cells and a personal interest in helping customers find the best solutions. I have over 20 years of experience in manufacturing and engineering in various disciplines. In my career trajectory, I have learned both the "why" and the "how" of load cell design and I use that knowledge to meet the needs of my customers in a timely, cost-effective manner.

OUR PROMISE TO YOU
