PRODUCT DESCRIPTION

KHPR umbrella Travel Umbrella Small Sun & Rain Umbrella, with Windproof Lightweight UV Protection Outdoor Portable Parasol Compact Umbrella

Ultra Lightweight - This compact umbrella is only 8.4 oz weight, 7.4 inch length yet open to form a large 38" canopy, 5 Folding constructure mini foldable umbrella short enough to fit perfectly in your makeup bag, briefcase, suitcase or kids backpack. With mini design, this parasol umbrella short enough to portable for anyone!

Windproof Construction Design - Unlike other mini umbrellas are made of 6 ribs. KHPR folding umbrella boasts 8 ribs plus a strength metal shaft. It won't easily be broken or turn inside out, effectively withstand strong winds.

Upgrade Button Design - Replace the non-button design with press button design. The non-button design ensures your finger not be hurting when close it. The small umbrella closing and opening is manual while all work in a swift and easy motion. An Velcro strap keeps it closed nicely when close.

Sun & Rain Protection: The travel umbrella canopy is made of a layer of UV resistant material. The UV protection umbrella is able to block 95% UV ray and protects you well from the strong sunlight. Our sun umbrella is made of Teflon to ensure that the water droplets are dry, ensuring excellent protection and drying even during the most rainy summer rainstorms.

Contact - Our compact umbrella for travel are of good quality and durable. It's also wonderful gift for family, friends, colleagues. If it doesn't meet your expectations, please feel free to contact us at once.

Product Description

The diameter of the umbrella surface is up to 38 inches wide, which brings a large enough umbrella surface area, which can effectively resist the violent sunshine on sunny days. On rainy days, the waterproof effect is good, and it is resistant to rainwater washout.

The umbrella cover is made of a layer of anti-ultraviolet material. The anti-ultraviolet umbrella can block 95% of ultraviolet rays. It is made of Teflon to ensure that the water drops are dry and the waterproof effect is good.

Small and cute, light travel, umbrellas can be put down in large, medium and small bags, the length of the umbrella body is about 7.4 inches after the umbrella is collected, the volume is super small, and it can be carried anywhere.
