This desk is for my son's college apartment. Assembly was not too difficult, and it is a very handsome desk. The only issue is that it is not super sturdy. Otherwise, it is a very nice desk

This desk matches the color of the furniture in my bedroom. There is ample drawer space for all my needs and plenty of desk top room for my large laptop computer. I really like it and glad I bought it.

This desk is a pain to put together, it takes some time that is a fact, however, once it's built it is so beautiful and incredibly sturdy.

It is definitely worth the effort to build and the price!
