- **【Multiple functions】** Our roller shade uses textured fabrics, blocks out 100% sunlight and UV rays. The thermal insulated backing can reduce room heat and cold loss through window during winter and summer, helping cut your energy bills. It also works well in noise reducing and privacy protection. Great for bedroom, living room, bathroom, kitchen, French door and office.
- **【Configuration】** Our products come with fabric-matched covers that look beautiful while reducing the top gap. We integrate the operating system and roll curtain into the cover to make installation easier. At the same time, we use better than stainless steel rope plastic pull rope, so that the curtain is easier to operate, not easy to break, longer service life. Plastic pull ropes are equipped with child safety devices.
- **【Measurement】** The fabric width is 1 1/8" narrower than the total roller width, due to the brackets at the both ends. For inside mount, window frame should have at least 3 5/8" depth, and blackout roller shades will have a tiny light gap on each side. To avoid light gap, consider the outside mount. For outside mount, shade should be 4" - 6" wider than window frame, shade length should be at least 2" longer than the window length for better coverage.
- **【Child safety, easy to install】** Our accessories package includes all the accessories you need, as well as child safety devices and instructions. Installation is very convenient. If you are not completely satisfied with Opertam roller shades, PLS feel free to MSG us. We will contract you ASAP.

Product description

Color: **Beige** | Size: **34"x 72"**

Our roller shade uses textured fabrics, blocks out 100% sunlight and UV rays. The thermal insulated backing can reduce room heat and cold loss through window during winter and summer, helping cut your energy bills. It also works well in noise reducing and privacy protection. Great for bedroom, living room, bathroom, kitchen, French door and office.

Roller shade for home is perfect for creating a warm and cozy space that's open and chic, shielding you from the sun in complete style.

If you mind gaps on both sides, we recommend that you use curtains to block them.
