Fyngntny Downlights, simple installation with night light function, safe and energy-saving

#### Description Reviews

This Downlights with luminous function will make you not afraid of the dark night, nor will it be too bright to affect your sleep. Downlights has good heat dissipation, will not overheat or cause fire in the overhead joist space, and installation is worry-free. High-energy LED recessed lighting uses advanced LED chips with higher lumens and lower power. Compatible with most dimmers, suitable for humid environments, and meet the needs of various applications such as kitchens, living rooms, bedrooms, bathrooms, workplaces, public areas, outdoor soffits, and other hard-to-reach spaces. Our Downlights have passed various certifications and meet stringent energy-saving, safety and reliability requirements.
