Question: [Is this guitar for kids or adult](#)

Answer: It's the kit for musicians of all levels. for kids and adult with a beautiful Silver Burst(Grey Silver) color.

By FIREBIRD MUSIC [SELLER](#) on June 6, 2017

Question: [The body looks bent... is it bent for a reason?](#)

Answer: Assuming you're talking about the tapered relief at the corner, then yes. It's there for ergonomic purposes.

The gentle slope is less awkward and/or irritating for the right arm to rest against. There should also be a

bevel on the back, often referred to as the tummy or belly cut. ... [see more](#)

Amazon Customer

★★★★☆ **Adequate for a starter, mostly.**

Reviewed in the United States on March 28, 2018

Verified Purchase

This is not a "forever" instrument. It's enough to get you started to make sure you enjoy practicing enough to get a "real" instrument.

I have two major gripes, one is objective, one subjective:

The deal-breaker is the 5th fret is out of tune. I've set the intonation so that it's perfect open and at the 12th fret, but the fifth fret is still sharp on every string.

The subjective problem is just a matter of my play style... the pickup switch is situated so I keep hitting it when strumming hard/fast.

That being said, it got me through 9 months of lessons, and gave me enough of an idea of what I do and don't like that I felt confident buying my new guitar. The extras are decent; the tuner is a big help, it's nice to have a selection of pick thicknesses to try out, and the amp is a compact little practice amp.

chadjason

A cheap guitar gives you cheap sound. And sometimes not even that.

Reviewed in the United States on April 14, 2018

Verified Purchase

I am completely new to guitars, but i know a problem when i hear it. Either the frets at the upper end of the neck are not set correctly, or the neck is not right. The strings are so close to the frets at the upper end that they touch the next lower frets as they vibrate making the guitar sound absolutely terrible. It is so incredibly distracting that it is pointless to even continue with this thing.

Best/most economic starter kit out there!

Reviewed in the United States on January 1, 2018

Verified Purchase

Great starter electric guitar. We are very impressed with the quality and the amount of extra stuff that is included in this package. Would highly recommend this kit as a starter for anyone that is interested in learning to play!

But, as I expected the guitar is just cheap and wont stay in tune

Reviewed in the United States on September 17, 2019

Verified Purchase

I bought this primarily because I needed a small practice amp with headphone. The amp turned out to be great. But, as I expected the guitar is just cheap and wont stay in tune

Vic

Great Value (once you do a little set up)!

Reviewed in the United States on October 1, 2017

Verified Purchase

I played guitar for years but it's been about 6 years since I last picked one up. Ordered this one on a lark just to see how if I could still play. This guitar is not going to sound as good or play as well as a US-made Fender, but it's pretty good for under \$100, with a caveat. This is obviously a mass-produced item and you'll want to do a bit of set up before playing it. As you can see from my photo, the bridge on mine wasn't fully screwed down. When I was replacing the strings, I discovered that the tuners were also not tightened down. Once those issues were addressed, I also tightened down the truss rod (as much as was possible) to fix a bow in the neck and adjusted the saddles to adjust the string height and intonation.

★★★★★ Great beginner kit

Reviewed in the United States on October 13, 2017

Verified Purchase

Great beginner kit! I am not an experienced guitarist I can't comment to the quality in comparison to more expensive guitars. But it works great for me. Extra strings, tons of picks, amp sound good in my apartment.

★★★★★ Ain't Eric or Jimi yet

Reviewed in the United States on August 25, 2017

Verified Purchase

Was going to purchase for my daughter, but found myself keeping it for me to use instead. Entry level, feels good enough to learn on. And since I have ability to start playing like Clapton or Hendrix just yet, it does the job.
