ZWPAYF Lanterns for lighting Solar Lanterns Hanging Solar Lantern Outdoor Waterproof LED Garden Lights Ellipse Retro Metal Lighting Lamp for Patio Yard Pathway Landscape Decorative

- **DECORATIVE & RETRO DESIGN:**Outdoor solar lanterns are made of bright copper color metal.Charming hollow patterns and subtle glow lights up your patio in a special way and adds elegance and color to your terrace, porch or outdoor space.
- **HIGH QUALITY:**Every hanging solar lantern includes 1 x AAA 600mAh NI-MH battery.Solar panels use monocrystalline ,the solar conversion rate of monocrystalline silicon is as high as 20%,which ensure the power generation efficiency of the product.
- **SAVE ENERGY:**The led solar light be charged by solar without a power connection.If fully recharge the battery more than 6 hours with enough sunshine, it will keep lighting for 8 to 10 hours at night.
- **WATERPROOF & RUSTPROOF:**The hanging solar lantern is made of high-quality plastic and high-quality metal,waterproof (IP44) and heatproof, prepare for whatever weather comes,Perfect for outdoor use.
- **EASY INSTALLATION:**This hanging lamp is easy to install , Simply open the cover, flip on the switch, place or hang the light on patio,on the side of the road, hung on the tree or anywhere you want.You can make the most of this beautiful lamp to decorate your house.

Product Description

Solar Hanging Lanterns

ZWPAYF Solar Lanterns

These outdoor solar lanterns are suitable for courtyard lighting, decorating your roads, lawns, tables, all other outdoor and indoor. During the day, the solar panel converts solar power into electricity and store in the rechargeable battery, the light turns on automatically at night.The solar Lanterns provides some illumination, casting gorgeous, whimsical pattern,the light from the lamp illuminates your path and lets you feel the warm atmosphere.

Tips:

1. Please put it in the sun to absorb the solar power when it is used for the first time.Make sure the light is turned on before charging.
2. Do not put the lantern light near strong lighting source, which may cause the light to turns off even if night falls.
- 3.Please keep its switch on the ON position all the time unless you want to stop its working.
4. Remove the protective film from the solar panel before use and Do not immerse the light into water.
