Reviews (0)

- Ideal for multiple surfaces, including cleaning carpets, rugs, hard floors, & upholstery with powerful suction and a flexible vacuum hose with an integrated air regulator. Reduce allergy-induced pollutants in the room by trapping debris and dust inside the vacuum bag.
- Designed to be lightweight and easy to carry around your house, staircase, or garage. We understand how hard it is to carry heavy equipment around, especially on two floors or more. That's why we got you the right model with a powerful capacity of the motor, suction, and dust containment to assist in your day-to-day cleaning routines.
- Has a powerful motor with overheating protection that helps you clean the most out of multiple surfaces with an incredible suction capacity. The dust capacity is perfect for covering your home and large spaces with no hassle, maintaining all the dust away from your allergies, children, family, and pets.

Please note that due to limitations in photography and the inevitable differences in monitor settings, the colors shown in the photography may not correspond 100% to those in the items themselves.
