## DESCRIPTION

## REVIEWS (0)

Tumbler Press electric glue guns Press Hot Glue Tool Non-Drip Portable Electric 30W Craft DIY Repair Tool with Heat Melt Stick Heat Melt Glue Tool

- Electric glue tool uses a ceramic ptc thermistor as a heating element, which has a fast heating speed
- Melt glue tool has an automatic constant temperature and a built-in safety fuse to prevent damage to the glue tool caused by the heating element
- This electric glue tool is suitable for all universal glue sticks with diameter 7-7.5mm, if you need more, its extremely easy to find extra and replace the glue sticks

- The 30W electric glue tool is plugged in AC 100-240V power and started for 5-8 minutes, and take the trigger to start using. The electrical insulation strength does not break down when 1800V/minute is energized, and the withstand voltage is 330V/3 minutes

### Product Description

#### Description
