  - Button closure
  - Short sleeve, elastic waist shorts, contrast binding, silk satin loungewear nightwear
  - button down, lapel collar, short pajama sets
- Very soft and comfortable, great for lounge around, daily, pajama party, etc
- Fabric has No Stretch

### Product description

● Silk satin certainly feels as good as it looks. It is preferred over satins made from synthetic fibers largely because of the feel of the material. Satin made entirely from silk doesn't attract static electricity, and it breathes as fabrics made from natural fibers do. Silks made from polyester cling and get quite hot. Silk fabric also allows fabric makers to create satins with a richer color than can be achieved with a synthetic fiber.

### Product information

Brand: XINHELAN

Item Weight: 240g

Manufacturer: XINHELAN

Color: White

Date First Available June 5, 2022
