Getting worse don't pay the year up front..wait the app continuously freezes on my phone it also freezes when I cast it. But what really doesn't make any sense is it's freezing on my computer that is hardwired to the ethernet cord and I'm trying to sign in and it's spinning. I like the content on the network but if they can't get their streaming issues together I'm going to have to leave because it should be free if I have to deal with this much of an issue.

I love the shows on the app. but I hope my 3.99/m helps them improve their set up bcuz it's terrible. Sometimes I can't pause the show I have to exit out. Sometimes a task bar comes up at the bottom. And the next episodes don't auto play. Little irritating but beings there a new network I'm assuming they are working

The app is extremely glitchy. It has a bunch of interesting shows, and I already paid for it, so I still use it but its not worth the fee if it shuts down, and freezes every 10 minutes. If I try to pause the show, it freezes so I have to close and restart the app to continue watching it... doubt I'll keep it past a month.
