## Videos

### Rise of the Jamstack

The emergence of Git centered workflows, around modern build tools, static site generators, and modern browsers, have changed the way most front-enders work.

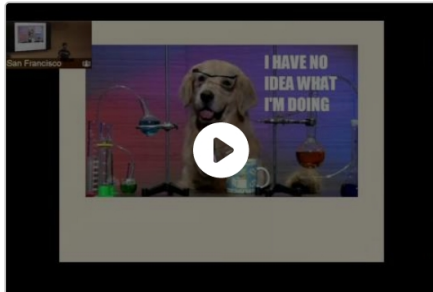

### The New Front-end Stack. Javascript, APIs and Markup

Matt Biilmann covers how a new stack has emerged and how this has changed how web sites and web apps are built.

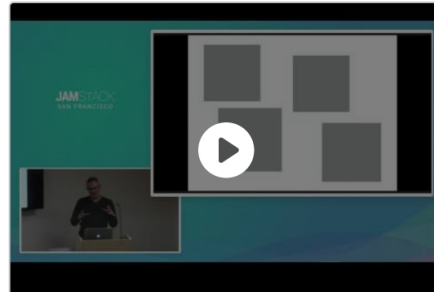

### Easy Isomorphic Rendering on the Jamstack

In this talk, Phil explores some techniques and tools which can combine to create dynamic and powerful sites with on a JAM Stack.

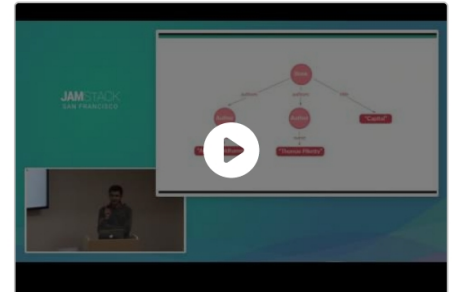

### Using Elm to Prototype and Build Web Applications - David Calavera

Recorded at JAMstack SF Meetup, November 10th 2016

### Rethinking Loading - Gray Norton

Recorded at JAMstack SF Meetup, January 17th 2017 [meetup.com/jamstack-sf/](http://meetup.com/jamstack-sf/)

### GraphQL: The Mental Model - Dhaivat Pandya

Recorded at JAMstack SF Meetup, January 17th 2017 [meetup.com/jamstack-sf/](http://meetup.com/jamstack-sf/)

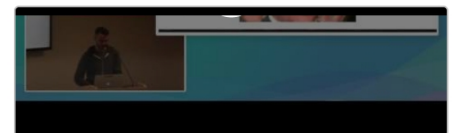

### JWT FTW WTF? - Matt Biilmann

Recorded at JAMstack SF Meetup, January 17th 2017 [meetup.com/jamstack-sf/](http://meetup.com/jamstack-sf/)

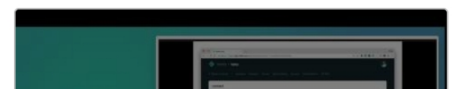

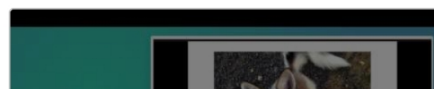

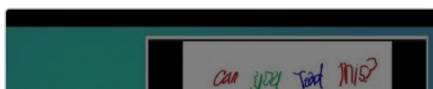

### The Rise of the JAMstack CMS - Matt Biilmann

Recorded at JAMstack SF Meetup, February 21st 2017 [meetup.com/jamstack-sf/](http://meetup.com/jamstack-sf/) CMSes have been large, bloated monolithic applications that gobbles up more and more...

### Jammin' with Markdown - David Wells

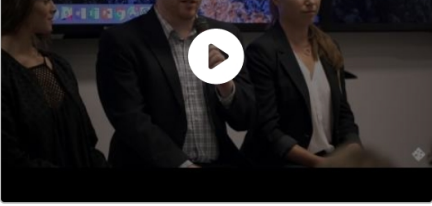

Recorded at JAMstack SF Meetup, February 21st 2017 [meetup.com/jamstack-sf/](http://meetup.com/jamstack-sf/) Markdown is the language of choice for most static site generators and for documenta...

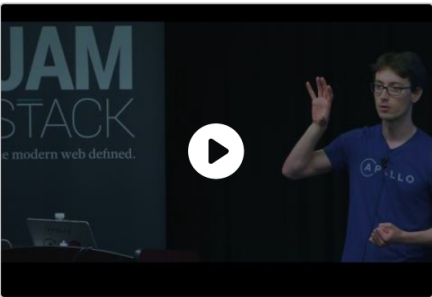

## Cordelia McGee Tubb — “Designing for the Web for Senior Citizens”

Recorded at JAMstack SF, May 16th, 2017

## Net Neutrality Panel Discussion at JAMstack SF

July 18th, 2017 The JAMstack is all about the power and possibilities of the open web. Net Neutrality is a cornerstone of all that makes the web great. This ...

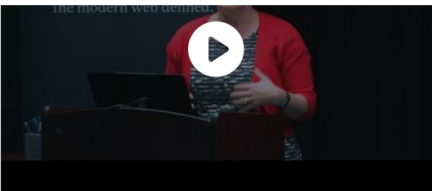

## Apollo client + GraphQL — Jonas Helfer

React, Angular & friends make it easy to build reusable frontend components, but it's up to the developer to figure out how to load data into the UI and keep it...

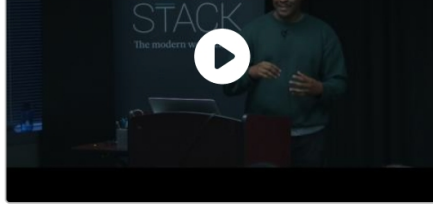

## Building towards a holistic development service — Amjad Masad

We as developers tend to separate our development tools by the stage of the development lifecycle: authoring, executing, building, or deployment. But this limit...

## Samantha Paras, “Accessibility at a Startup: Making it Easy to ‘Do the Right Thing’”

Recorded at JAMstack SF, May 16th, 2017

## Frontend for a server-less stack — Brian Douglas

Finding a modern toolset to create truly fast, secure and dynamic sites has been an endless search. With JavaScript, Lambda, and Markup, we have just that. A st...

Introducing Jamstack: The Modern Web Architecture

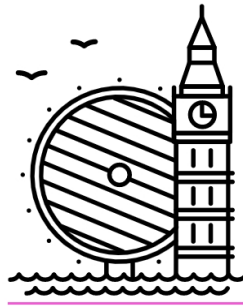

# JAMstack\_conf

JAMstack is growing, and this year we will be in two brand new locations. New York City, and London—both together with our flagship conference in San Francisco.

## New York

April 9-10

## London

July 9-10

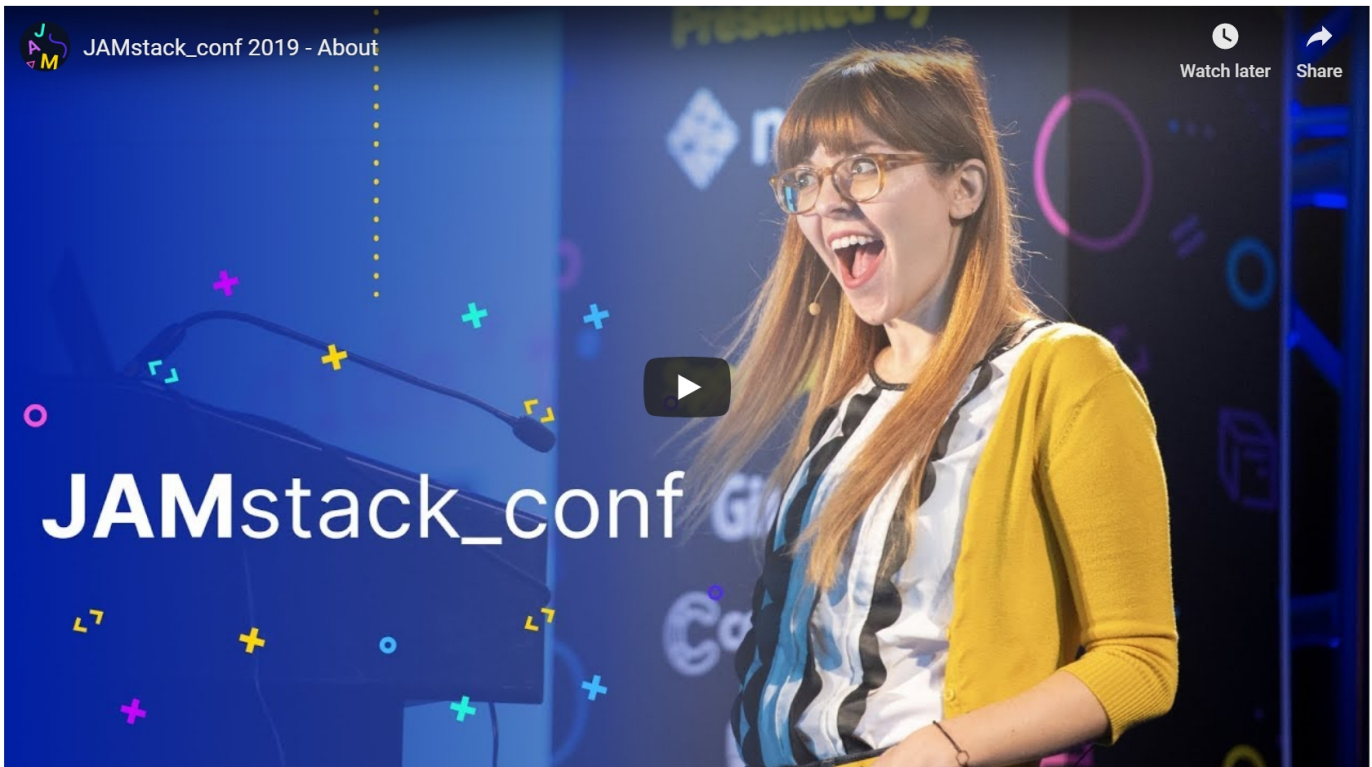

## San Francisco

October 16-18

# Highlights

Learn directly from the creators that have powered one of the most transformational periods in web development since the dawn of the Internet.
