VOLUNTARY AMENDMENT TO REQUEST TO DIVIDE APPLICATION

Applicant, Alkaline 88, LLC, filed Application Ser. No. 88229942 (the “’942 Application”) on December 14, 2018 for goods in International Class 32. On November 5, 2019, the Applicant filed a Request to Divide the application pursuant to 37 C.F.R. §2.87. On January 27, 2020, the USPTO issued a Notice That Request to Divide Application Is Incomplete in related Application Ser. No. 88229868 stating, *inter alia*, the Request to Divide filed in that application cannot be processed because it is not clear which goods should be divided out into a new application. Accordingly, Applicant submits this Voluntary Amendment to the Request to Divide to clarify that the ‘942 Application here should be divided into two separate applications as follows:

1. Present Application No. 88229942. Please retain the goods “*hemp water; fruit flavored hemp water*” in International Class 32 in the “parent” application.
2. New Application. Please make the goods “*water beverages; drinking water; bottled water; bottled drinking water; purified bottled drinking water*” in International Classes 32 the subject of a new “child” application.

Dated: February 4, 2020

Respectfully submitted,

_____/Brad R. Maurer/
