

### Elite Growing Platform™ - CONTACT US FOR COMMERCIAL PRICING

SOLD OUT

★★★★★ No reviews

**Elite Growing Platform™** - High tech growing platform for larger, healthier plants.

Available now in quantities of 6 or more. For larger orders, contact us for commercial pricing!

**Each Elite Growing Platform includes:**

**2 - PotSocks™** (2) disposable PotSocks are included with every Elite Growing Platform™. The mesh bottom allows for the roots to move freely downward and cinch top simplifies clean-up.

**1 - Inner Units:** Hexagonal screen bottom is designed to suspend the root structure and provides optimum drainage. Heavy duty molded plastic will support any growing media.

**1 - Outer Units:** Sloped main drainage point allows all water to escape freely and includes a 3/4" hose attachment. In the event of a main drain clog, the secondary drain is equipped with a one way rubber split valve that will expel trapped water without letting in light. This can help eliminate instances of root rot and false readings.

**1 - Locking Stands:** Securely locks the Elite Growing Platform™ in place and keeps the root structure high off the floor. Dual openings allow for drainage line outputs and spigot inputs. Includes foot holes for easy assembly. Optional casters available.
