

This is my follow-up action from my phone conversation on 6/2/22 with the examining attorney.

I am taking advantage of the section for “[MISCELLANEOUS STATEMENT](#)”: Enter information here ONLY if no other section of the form is appropriate” on the TEAS form for “Requestion for Reconsideration after Final Action.”

Using this ‘section’ I have attached below two snapshot PDF files for the examiner to view what my personal website displayed since 8/2/18 (almost 4 years now). This date can be proven by the previous examiner’s examination of my previous filing, see:

Re [Novemberteenth / Aprilteenth (Serial #87869449)] and contained within the documents tab description: `Offc Action Outgoing’ which shows over 70 snapshots of my website, taken by the examiner dated August 2, 2018. However, out of the total 76 attachments therein, two (2) show the specimen with the applied for mark (and TM):

- Attachment #1 – which is a snapshot of my website’s subpage that displayed the specimen with the applied mark (and TM) as it appears today, the same as almost 4 years ago! - <http://www.nubian-pageants.com/home/novemberteenth-aprilteenth/>
- Attachment #68 – which is a snapshot of my website’s home page that displayed the specimen as it appears today within the 2nd video closest to the bottom of my website’s home page, the same as almost 4 years ago! - <http://www.nubian-pageants.com/>
