Derma Tologist Recommended

My toddler has had really bad excema since he was 3 months old. **This lotion has saved his skin!** I lotion him three time a day with it and no outbreaks! It works wonders for him!

Pros: Great value, Meets expectations

Yes, I recommend this product.

An Excellent Skin Cream

I use it twice a day and it seems to control my psoriasis very well.

Yes, I recommend this product.

Works As Advertised.

Prouct has greatly softened and reduced my daughter's eczema. It also helps reduce the itching and inflammanion due to less scratching of reddened patches..

Pros: Meets expectations

Yes, I recommend this product.

I Would Recommend Anyone With Eczema Try This

I have had chronic eczema which resurfaced when I was 11 and was incredibly difficult to manage and live with until my mid 20s when I began using restoraderm. Doctors were only able to give me cortisone shots and found nothing under allergy testing, but inevitably the breakouts came right back. I have used nothing but restoraderm for 7 years now without needing steroids and I can honestly say it has changed my life. I don't know where I would turn if it was ever discontinued.

Best In The World Cetaphil Eczema Calming Body Moistu. \$19.79

Details

I am having genetic dry skin problem. I have tried most of the products available in market. About this product I came to know through some videos in YouTube. And last month I bought my first bottle. I would say it is one of the best things happened to me. I have been waiting for a product so that I won't feel ashamed to wear shorts or going to beaches and all. **This product did a great job.** I started going to gym in shorts. Thanks a lot.

Great Immediate Feeling Of Relief

I love Cetaphil and when they came out with this product, I immediately purchased it the moment it landed on the shelves while other stores weren't even carrying it yet. **The moment you put it on your skin there is instant relief, no funny stingy feeling on enflamed skin.** I suggest this lotion to all my friends and family who suffer from eczema. **It's the best thing on the market and I've tried everything.**
