

Perma**web**

Let's rethink groups

Create private groups for work and friends. Keep control of your data and who can see it.

 Join our private beta (Windows, Mac OS, Linux)

Perma**web**

INSTALL THE APP

Get started by installing the app. You need this so you can encrypt and self-host your data.

CREATE A GROUP

Posts made in the group are only visible to people with an invite link.

SEND INVITES

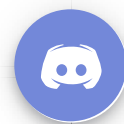

You can easily invite or revoke access to your group by generating a link.

Simple & secure

Write updates for your investors

Share sensitive docs with your lawyers

Plan a secret event for VIPs

only

Perma**web**

Everything you do is encrypted. It is hosted securely on the group members computers. No cloud or logs for us to track.

Features

Perma**web**

 **WRITE STATUS
MESSAGES**

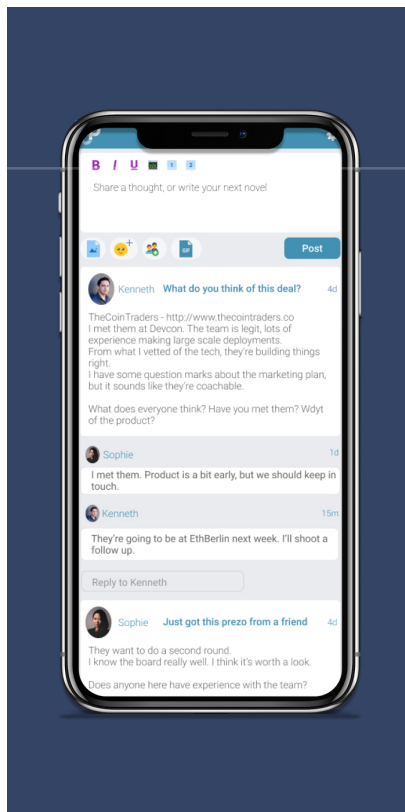

Share status updates with your group. No 140 character limit here.

 **PUBLISH ARTICLES**

Write long-form articles. Style them in **bold**, *italic*, and more.

 **SHARE LINKS**

Share interesting articles and docs from other services with your team.

 **POST IMAGES**

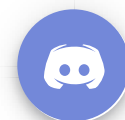

Share photos, fun memes, and screenshots.

 **EMOJI REACTIONS**

Sprinkle your posts or react with 😂😏🔥👍 and ¹⁰⁰s of emoji.

 **GIFS**

A picture is worth a thousand words. A cat video is worth millions.
