This is interesting. Certainly one of the bigger installments using AR that I've seen. The controls are a little difficult, and the need for plenty of space so you can move around the virtual level can be a bit tedious, but this is still a jump up in what AR games can accomplish. Try it, you might l...

★★★★★ Major Victory for The Major and Section 9

Reviewed in the United States on August 26, 2016

As a long time fan of Ghost in the Shell, I was thoroughly overjoyed when they announced Arise. Like many others, I was a bit unsure of Motoko's new look, but after sitting through the Arise Border movies and being capped off with The New Movie, I have to say I've really come to enjoy her new look --- in some regards, even more so than her Stand Alone Complex / 2nd Gig look!

The story of each Border is fantastic, insightful, complicated without being overly confusing, and entertaining. The quality of the animation is top notch, and these contain quite a bit more action than the original animated series do. I've now watched them a number of time and enjoy them as much as I do 2nd Gig, which is my overall favorite entry in the GITS Franchise.

Liked ARISE so much I actually own many ARISE PVC Figures of Motoko Kusangil

★★★★☆ **Great For the fans and GitS newcomers, sub par ending, nothing uncharacteristic of previous stories.**

Reviewed in the United States on October 15, 2015

I've watched episode 1&2 in Japanese with subtitles previously at a local convention, and just now watched the whole four part/border series in English today. I guess you can watch just these two episodes, but I would advise against watching this without also buying and viewing borders 1&2. I was pleased to see that despite having been labeled as Blu-Ray, all four episodes (1&2 bought earlier this year and left unopened until today) came with what appears to be a DVD version of each episode, a notable bonus.

Looking at all four episodes in this review, the series appears to be an entirely new continuity from every other Ghost In The Shell production, which may bug some viewers. If you love everything Ghost In The Shell however, and don't mind keeping track of this as it's own self contained dimension from the movies and etc, then it has some great storytelling and moments. In some ways it's better, though mostly the same as previous iterations of the story. The only episode I found lacking is the fourth, particularly where it tries to tie in some events of previous episodes, which otherwise could have just remained fascinating unrelated on-off events. I feel they should have axed tying those episodes together into this one, and focused on the unique storytelling of the fourth, which I did find interesting. The tie ins are characteristic of all GitS stuff however, so can I really blame it for following through as usual? Perhaps if I actually understood and fully comprehended how everything pieced together, then I wouldn't have found the last

love all things ghost in the shell. this series is a prequel, showing the formation of section 9. very good story and animation. it's a bit confusing about the way these films were edited into a tv version and will lead to a movie. i would like to get the standalone video of the episodes linking this to the movie. consistently annoyed by the fact that mary elizabeth mcglynn, who i loved as the standalone complex english voice of the major, is now playing another important character. conversations between her character and the new voice of kusanagi are confusing, because the "major's" voice is coming out of another character's mouth, speaking to the face of the major. not a big deal, but since mary elizabeth was obviously available, why not just have her play the major? it makes no sense.

★★★★★ **Turned Out To Be Pretty Good.....**

Reviewed in the United States on November 10, 2015

Well, I was wondering if this would be another situation where the characters were changed to the point to be not the same as the original series were. It turned out to be a very good set. First, one gets a really good look at how the Major was before she got to be as in the Stand Alone Sets. It was very nicely done and I really like how they showed the character traits which she shows later on are shown to develop. (I really like the one place near the end where Buto has to once again "save" the Major from herself as she tries to follow someone's memory that is coming apart. I very typical Major response to wanting to know.) Overall, a very nicely done second set. I hope for more like this!

★★★★★ **I want my very own Motoko!!**

Reviewed in the United States on October 20, 2015

Awesome. Period. There is almost nothing else to be said in my opinion. I absolutely loved this "prequel" OVA series to the ETERNALLY AMAZING, GITS franchise. Including the English cast, who knocked it out of the park at every turn. Yeah, there was a part of me that wished like hell the original cast had been gathered to reprise their roles (especially since Mary Elizabeth McGlynn was cast in a different role - it was nice that they brought her back for the "reboot" but why she wouldn't have been first choice for Motoko is still weird to me) but at the end of the day, everyone remained exceedingly true to the characters many of us have loved for years.

I'm happy with it's pricing and didn't mind the separation of release between parts 1 & 2, and 3 & 4. But honestly, for this I'd have paid twice as much to add it to my collection. It's impossible to own too much Ghost in the Shell in my opinion - and this was no exception. Personally I'm not creative enough to generate more of this story line but I hope they continue crating new GITS "adventures", whether part of this version of the mythos, or part of the original series / seasons and movies. I can't imagine a world where creating too much GITS would be an issue.

Definitely worth the addition to one's collection.

★★★★★ **A new flare for an old favorite.**

Reviewed in the United States on February 20, 2017

Arise captures the flavor of what made the original Ghost in the Shell great and adds its own flare to it. While it does not reach the heights that the Stand Alone series attained, I find Arise more enjoyable than the 2nd Gig. I can recommend Arise without hesitation to those familiar with Ghost in the Shell and for those looking for a good diving in point.

★★★★★ **Die Geschichte wird gelungen weitererzählt**

Reviewed in Germany on May 16, 2020

Verified Purchase

Von Ghost in the Shell gibt es inzwischen ja eine Menge Umsetzungen und für mich gehören die Teile aus Arise zu denen mit denen ich mich neben dem genialen "Hauptwerk" am ehesten anfreunden kann. Gerade in Zeiten wo Cyberpunk 2077 oder Altered Carbon in den Fokus eines breiten Publikums rücken (natürlich gibt es noch mehr

aktuelle Beispiele).

Man erfährt eine neue Hintergrundgeschichte von Major Motoko Kusanagi und kann wieder tief in die vielen Details, die großartigen Szenen, Musik und Charaktere eintauchen und dabei philosophieren, was eigentlich Menschsein bedeutet. Außerdem erlebt man Motoko auch etwas privater, auch wenn der Rest der Gruppe eher in den Schatten bleibt, wird das Team an sich deutlicher gezeichnet.

Die Übersetzung ist sehr gelungen. Ich habe gar keinen Grund es im Original oder auf Englisch zu sehen, da hier viel Arbeit in gute Sprecher gesetzt wurde und man merkt, wenn diese mit Motivation an die Arbeit gehen. Ob man nun neu einsteigt, schon ein wenig weiß oder alles kennt - ich denke hier hat man einen Pflichtkauf in guter Qualität vorliegen. Der Preis war für den Umfang noch in Ordnung. (2 Kurzfilme und ein paar Extras + 1 Booklet).

★★★★★ **Gute Vorgeschichte**

Reviewed in Germany on December 21, 2017

Verified Purchase

ARISE ist für mich eine gelungene Vorgeschichte zu Ghost in the Shell. Das Team kommt zusammen, man erfährt etwas zu den jeweiligen Hintergründen und Beziehungen, was mir persönlich sehr gefallen hat. Technisch ist die Blue-Ray auf gutem Niveau und Zusatzmaterial ist auch drauf. Nette kleine Logichoma-Geschichten, zum Beispiel. Bleibt für mich dem Geist des Ursprungsfilms treu (dem würde ich eher sieben Punkte geben), halt moderner gemacht, kann ich gut mit leben. Die einzelnen Geschichten der Teile 1-6 (border 1-4 + 2 Teile pyrophoric cult) führen zum Film Ghost in the Shell - The New Movie. Der arc ist also eine abgeschlossene Vorgeschichte zum Ursprungsfilm Ghost in the Shell, die einzelnen Storys sind gewohnt spannend, witzig, actionreich und voll von politischen und philosophischen Fragestellungen - Ghost in the Shell wie es sein soll.

Mir persönlich hat es also gefallen, Inhalt und Ausstattung daher von meiner Seite zu empfehlen.

★★★★☆ **Good Series, with a slight catch.**

Reviewed in Canada on November 18, 2015

Verified Purchase

I really enjoyed the ARISE series, the art style was very good and I liked that they gave Kusanagi a bit more emotional expression than before. And these bluray box sets are a pretty comparatively good value compared to the other box sets of GITS available.

Of note however, there is technically a 5th episode of ARISE between this series and the new movie. Unfortunately that 5th episode isn't contained in the ARISE series but rather in the 10 episode ARISE: Alternative Architecture series as two episodes. Furthermore ARISE: Alternative Architecture is literally just ARISE with the order of episodes rearranged, and then broken into two parts. If I knew this before I bought them I would have held off and just bought ARISE: Alternative Architecture whenever it came out on box set as now I'm essentially one episode short. Keep this in mind when purchasing.

Für Fans der Serie ein Muss!

Ich bin seit dem ersten Film 1995 Fan der Serie.

Ich weiß nicht wie ich das beschreiben soll, aber so sollten Hollywood Filme sein.

Ghost in the Shell steckt voller Spannung und Action.

Der Ton ist einfach wunderbar für 5.1 Anlagen ausgelegt, und das ist gut so, denn so kommt die Atmosphäre erst richtig rüber.

Die Filme sind wahre Meilensteine!

Ich empfehle einfach jeden der auf gute Filme steht, und vor allem auf Animes, sich einfach die komplette Geschichte von Ghost in the Shell an zu schauen.

Dabei sollte man natürlich die chronologische Reihenfolge beachten.

Sehr zu empfehlen!

ABOUT THIS GAME

ARISEN: Prologue is a free playable alpha demo of **ARISEN - Chronicles of Var'Nagal**. It's a story-driven game in which you express yourself with your emotions, embodied by cards. Your choices will impact your deck and that, will give you new opportunities... This version of the game contains around half an hour of gameplay and introduces ARISEN mechanics and lore building.

You have been torn away from your peaceful life by foreign soldiers, then chained in a hold... And now, you've just been sold as a worthless slave in the island of Maccialatt. Thanks to your willpower, your capacity of adaptation or your physical strength, you will embark on a quest for freedom..

As a sample of content for the full release the initial impressions are mixed. The conversation system is compelling the actual writing needs a lot of editorial work to not break player immersion.

to emote you answers.
Right off the bat you are given the choice to chose the genitals of your character and then they ask you for your pronouns. Although, they don't let you chose your skin BECAUSE... ta-ta-ta-duuumb, you are a slave... on a ship... so there's only ONE colour they'd allow you to be... in the current climate of so many entertainment industries you can already picture who made this game, and how focused on creating a good game they are.

sappy, silly, flash game with nothing to offer

POSTED: JULY 28

There is definitely room for improvement. BUT this is a VERY promising start for this game that I can't wait to fully play.

The subjects are not superficial ones, and this is VERY political. Which is why this game is interesting in the first place. Of course we play a black person : this game is about racism and slavery. It would be insulting to play it as a white character, even in a fantasy setting. Secondly, the gameplay with the cards is quite innovative! You get new emotions while playing, giving you more opportunities to discover branches of the story.

The gender choice is a really nice and inclusive touch, and helps sliding in the skin of the main character.

This is an interesting concept, but suffers badly from poor execution. It's a visual novel, and, as such, relies heavily on the quality of the script to carry the game; sadly, the script is not up to the task. It appears to have been machine-translated from the French, and is filled with exactly the sorts of stilted language and mixed-up phrasing that implies. This is especially odd, given the game's preference for over-the-top purple prose in every scene.

There is also a large amount of bizarre political correctness in play here, from the giant "trigger warning" before the game begins to strange moments in the dialogue where you're told that an NPC "doesn't seem to be trying to oppress you." The

There is certainly mush that still needs to be fleshed out. The music was good. Animation was acceptable. I personally do not understand why the character uses cards to interact with the NPCs of the world, but, while it was unusual and potentially limiting, it did not seem to get in my way. I would scrap the cards as they don't add to the game more than just... normal dialogue options would.

Be careful to remain respectful to the concepts you are handling in this game.

Extra points for trans options.

ABOUT THIS CONTENT

Setting, Extension and Library Module for Fantasy Grounds

This is the full book, complete with all Player and Game Master information for Novice to Veteran play!

Just paging through the Players Guide makes you want to play, and it's genuinely hard to create a boring character using this book; everything works together to make your Hero interesting. And that's even before you get to the four detailed Major Enemies lurking in Shaintar. Or the rules for alchemy, or the tantalizing glimpses we get of the Black Lantern and Grayson's Grey Rangers . . .

"A winner. Get this book." -- Ed Greenwood, creator of The Forgotten Realms (r)

Savage Worlds fans will find a lot to love about Shaintar: Legends Arise:

- Eleven distinctive Races with many specialized Racial Edges for each.
- Over 60 new Edges, including Professional, Combat, and Power Edges.
- Expanded options for magic, including Applications for Sorcery, Extended Casting, and more.
- New and expanded rules for Alchemists and Artificers, as well as personalized magic items.
- Setting rules like All Out Move, the Deep Magic, and Lead from the Front.
- Information about the many nations and factions that drive the stories of Shaintar.
- A complete Timeline featuring thousands of years of Shaintar's history.
- A Denizens section with many dozens of characters and monsters, as well as five new Monstrous Templates and templates for changing almost any Denizen to any of the eleven Races.
- An expanded Weapons, Armor, and Gear list for epic fantasy gaming, as well as a Resource system to replace "counting coins" for wealth management.
- Extensive advice about Game Mastering an Epic High Fantasy setting.
- Three Legendary Tales, "Countering the Terror," "Red Store Rising," and "Return to Honor, Return to Glory."
- Anyone seeking Epic High Fantasy adventure will enjoy this book, as will anyone wishing to add lots of great new material to their Savage games!

Dragon's Dogma: Dark Arisen

★ 4.3/5 | 🖥️ | English & 5 more

Description

Set in a huge open world, **Dragon's Dogma: Dark Arisen** presents a rewarding action combat experience. Players embark on an epic adventure in a rich, living world with three AI companions, known as Pawns. These partners fight independently, demonstrating prowess and ability that they have developed based on traits learned from each player. Players can share these Pawns online and reap rewards of treasure, tips and strategy hints for taking down the terrifying enemies. Pawns can also be borrowed when specific skills are needed to complete various challenging quests.

- **Dynamic combat experience** – Cut off the four heads of a Hydra, climb atop griffins and fight airborne, or defeat dragons and other creatures by finding out their weaknesses.
- **Tons of content** – Includes all previously released DLCs, pre-order bonuses, retailer-exclusives, and the Dark Arisen expansion content. Features the highly praised combat experience and rich customization, plus a huge underground realm to explore with terrifying monsters.

★★★★★ Amazing Open World Action RPG

June 5, 2017

60FPS constant throughout the game, very smooth. The ONLY action RPG that lets you climb on top of big enemies like Griffons or Dragons to slash them in various parts. Melee classes can combo and chain their attacks, even in the air. Magic and spells in this game are some of the most epic I've seen, whirlwinds blow enemy off their feet into the air where they come smashing back to the ground, ice pillars stab through mobs

While I more than enjoy the game, the problem is not with bugs or glitches, but the fact that for some reason, I keep running into the same tamer in battle park multiple times, it is becoming annoying and needs to be rectified, possibly by allowing you to block someone if that tamer appears to much.

...a great game. The progression system is fun for a free to play. Story is fun and gets significantly slower to progress through, but the different variety of gamemodes makes up for it. I'm glad I can pick my own color options for outfits now, but I practically have to pay for it still, which i...

It was fun during early lvl. But once you reached lvl45 and above, the game let you feel that its pay to play. The jump of power requirements on story mode (chapter 21), adventure (area 22), raids are insane! You cant move on any longer no matter how long you play the game. On top of that the team p...

It is a very fun game I love playing it. But please fixed the handicapped match making in dual PvP. I am always matched up with lv 100 in gold league while I am only in lv 50. This kills the interest to play more. Again for morph gear, the chance of getting better gear is to low compare to the item ...

Description

In the Age of Decay...

The year is 2053, and the Age of Decay has begun in the city of Los Angeles. The air is thick with pollution, the streets are teeming with the sick and starving. Crime is at an all time high, and drug abuse runs rampant.

The Dragon will arise...

The world is ripe for one who has waited centuries to reclaim Heaven and Earth. He is known by many names, and many have told of his coming. He is the beast, the *Dragon*, and he has come back to restore chaos to the universe and rule once more.

One will sacrifice all... So it is written, and Wiliam "Blade" Hunter, Private Investigator is the only man for the job. His violent techniques and brash disregard for regulations got him an early retirement
