### JUSTINIAN MEANS JUSTICE

Justinian & Associates is a personal injury law firm based in [Austin, TX](#). We have offices in [San Antonio](#) and [Round Rock](#) as well. Our sole focus is on helping people get compensation for their injuries. Most people who have been in a [car accident](#) would argue that they never asked to be injured and if given the choice between their lingering injuries, diminished quality of life, and some money — or never having been injured — they would choose to have never been hurt in the first place. We dedicate our practice and our lawyers dedicate their lives to making the insurance companies pay for victims' medical care (now and into the future), their wrecked cars, and their pain and suffering.

We are **injury lawyers**. Your *personal* injury lawyers — and we help injured people. Let us help you.
