★★★★★ **Easy setup and great picture**

April 15, 2021

We have other Google Nest products and all I had to do to set this up was plug it in and scan a QR code. So simple. Camera has a wide view so my whole living room (approx. 12' x20') fits in view. This also has a great clear picture. Worth every penny in my opinion. Although I did find them on sale! :p

★★★★★ **Switched to these**

May 3, 2018 | **Verified purchase**

Had d-links cameras, bought a new router and could not, for the life of me, get them to connect. thought was, spend more get better camera. These do connect pretty easy. Good picture, good detection and love the two way communication. Downside is paying for the cloud storage instead of microSD card for storing. Only had for a month so will see how they perform over long term.

Everything is great, from the sound to the image quality. Unfortunately after many tries, I am still unable to connect Google assistant and use Google assistant. Everytime I try to connect it, I press the "allow" button and afterwards, it says "there may a problem" and doesn't connect.

★★★★★ **Night Vision Needs Improvement**

March 7, 2021

Night vision needs to be improved. I can turn on my lamps and night vision remains on. It's clear that my living room or other rooms have ample ambient light, but it's not enough to toggle night vision off. Please improve this feature. Other than that the cameras work exceptionally well.

The app will continuously spam you asking to sign up for Nest Aware despite it not being required according to the product. Any interaction with the camera (touching screen, picking up phone, moving phone) will cause a large banner to obscure part of the video asking you to sign up. Dismiss and it will just return on any movement/interaction, so basically part of the video is permanently obscured unless you pay a subscription.
