TESTIMONIALS

"The quality with the hydraulic embalming table is above and beyond what I expected!"

Shawn M. Armstrong, LLC, MO

"The quality combined with price is better than I have seen."

Mike Heinrich FH, Inc., PA

"Everything arrived safe and sound. Wonderful value for the dollar....thanks!"

Chris Benesch, Earth's Option

"We did get our New stretcher, It is very nice. Infact we really like it a lot. We will be ordering all of our supplies from you for now on."

Steve R., C and R Transport

"The mortuary stretcher is great! We already used it for (transporting) 450 pounds..... was smooth and easy to operate."

Excellent to have on hand

Nov 02, 2021

[This review was collected as part of a promotion.] I got this thermometer to keep in my diaper bag so that I'd have one on the go. This was easy to set up, easy to use and delivered quick results. I'd definitely recommend this for your go-to no contact thermometer.

Easy to use

Oct 31, 2021

[This review was collected as part of a promotion.] I needed to be able to check my kids temperatures before school with all of the covid issues going on. This is easy to use so I can make sure my kids are fever free so they can enjoy their day of learning.

Easy to use

Oct 28, 2021

[This review was collected as part of a promotion.] I am very glad I got the opportunity to try and review this thermometer. With cold and flu season coming up this will be very handy. It is especially nice to have if you have to check the temperature of a sleeping child.

Ok, but not 100% sold

Oct 25, 2021

[This review was collected as part of a promotion.] I tried the DualScan Prime Ear and Forehead Digital thermometer and unfortunately I am not sure it is entirely calibrated correctly. I have two additional thermometers in my home which I tested against and received differing results. It seems like it is reading under temperature in comparison to my other two. I tested both measurements ear and forehead and received odd results. I'm not sure I would trust it to provide an accurate reading.

Very useful.

Oct 25, 2021

[This review was collected as part of a promotion.] Definitely came in handy especially now during Covid, I take my kid's temperature before they go to school. Love the dual mode where you can check on forehead and in the ear. Very pleased with this product.

Awesome thermometer for kids

Oct 24, 2021

[This review was collected as part of a promotion.] I received DualScan PRIME Ear & Forehead Digital Thermometer for review. This product is awesome for young children and also older children. My children are ages 13 and 9. This thermometer is convenient for self-use for both of them or for me to use especially when they're asleep and I'm concerned. I have found this thermometer very handy I previously had an ear only one and I hated waking them up to take their temperature. This one I can use on their foreheads without waking them up and it's amazing.

Received Free Product Yes

Easy to use precise digital thermometer!

Oct 24, 2021

[This review was collected as part of a promotion.] This is a super easy to use digital thermometer that tells you your body temperature in either Celsius or Fahrenheit. It's powered by a standard 2x AAA batteries. Either set it to the forehead or ear setting, and touch the thermometer to either your forehead or ear, you will get your body temp in less than a minute with a beeping sound. Everyone should have a digital thermometer at home. This is especially true in this time of pandemic. Just buy this Mobi dualscan thermometer and rest assured that all your body temp related questions will be reliably answered!

Easy to use

Oct 24, 2021

[This review was collected as part of a promotion.] Very quick and easy to use. Displays an accurate reading in seconds that I verified with a traditional thermometer. Makes taking my child's temperature so much easier. Functions are easy to switch between as well.

Blood pressure

Easy to use and read works great

I recommend this product

Was this helpful? 0 0

★★★★★ 6 months ago

Much better than the expensive complicated ones.

Ive had an Omron for a couple of years and it was complicated to set up and use and a royal pain. This little \$18 one is so much better. It is easy set up, it is accurate, it doesnt have any computer voices yelling at me to do this or that and it is easy to read. I love this little wrist one so much I bought another one for my son.

I recommend this product

Tag: oxygen concentrator

DESCRIPTION | SPECIFICATIONS | FAQ | USER MANUAL | MAINTENANCE | VIDEO | REVIEWS (0)

The **ResMed Mobi Portable Oxygen Concentrator (Pulse Dose)** is a compact and portable oxygen concentrator for respiratory therapy users. Mobi balances powerful pulse wave oxygen therapy along with a long battery life and a stylish non-medical design. Mobi is intelligently designed with a user friendly interface, DC and AC power cords, multiple battery options, and ResMed's legendary attention to detail and quality. Weighing at only At 5.5 POUNDS, Mobi is approved by the FAA for use on all commercial flights within the US and all international flights that depart or arrive in the US. A 5-Year Manufacturer's Warranty is included.

Key Feature

- **Compact:** The ResMed portable oxygen concentrator has the dimensions 8.0 x 9.6 x 4.5 Inches. This makes it small and handy so that you can carry it around with you in a backpack or handbag, and it is always near for use.
- **Excellent battery life and runtime:** The concentrator has a long and excellent battery life. The internal battery lasts for a total of 300 cycles, and the external battery can last up to 500 cycles. The runtime depends on the setting of the machine. For the internal battery, it lasts for 3.2 Hours at Setting 4 and can go up to 8.6 Hours at Setting 1. The External battery lasts 4.5 Hours at Setting 1 and 1.6 Hours at Setting 4.
- **Lightweight:** ResMed oxygen concentrator weighs only 5.5 pounds and is exceptionally lightweight and portable.
- **Disposable filter:** The filters are disposable and come in both standard and hypoallergenic types. The hypoallergenic filter type poses fewer risks to allergic reactions for more sensitive skin.
- **Five-year manufacturer's warranty:** The ResMed portable oxygen concentrator comes with a five-year manufacturer's warranty. If you face any problems with the functioning of the machine within five years of using the machine, you can contact the manager, and your device will be taken care of.
- **Complete kit:** The machine comes with a full kit and custom carrying case with a shoulder strap. It contains the MOBI portable oxygen generator, a cannula, and a filter. It also has an internal battery and both AC and DC power chord. The kit will also include a printed user guide and a warranty for any doubts or problems you may have.

In the box:

- (1) Machine
- (1) Internal lithium ion battery
- (1) Carrying bag
- (1) A/C wall power supply
- (1) D/C car power supply
- (1) Cannula
- 5 Year Warranty

Eleganza 5

Discover the new LINET bed Eleganza 5. The bed helps to maintain vital signs of the patient and enables staff to treat the patient safely and with minimal effort with the help of highly sophisticated features and functions.

Your benefits at a glance

Designed for Turning

Innovative tilting technology with smooth columns helps turn the patient gently with less physical effort.

The nurse will carry out routine nursing procedures ergonomically and effortlessly.

Helps to improve pressure injury prevention – regular patient positioning is therefore easy.

New technology: smooth bed tilting for even more sensitive care.

Mobi M6®

endermologie®: the 100% natural, non-invasive, non-aggressive mechanical skin stimulation technique that targets cells' processes.

Small and Powerful, the Mobi M6® exclusively provides aestheticians with a **powerful age defense system of facial treatments** that can be taken anywhere.

Key Benefits of Mobi 6®

Give your patients what they want:

- Naturally boosts our own collagen, elastin and hyaluronic acid production
- No pain, non-invasive, non-aggressive treatment, no downtime – Get results without pain
- 100% Natural
- Immediate results- radiant complexion and re-plumped skin from one session
- Fast treatments – In and out for busy moms and professionals
- Lifestyle application can be done frequently with no negative side effects
- Scientifically proven effectiveness
- Cost effective
- Complement to medical esthetic procedures
- A comfortable, sensory experience. The Mobi 6 procedure is relaxing like a massage.
- FDA approved & proven long history of safe and effective treatments
- Portability is a snap at less than 24 lbs allows for treatment privacy in the comfort of one's own home, salon or clinic

What the Mobi 6® is Used For

- 70% increase in fat release (lipolysis)
- 240% increase in collagen production activation (skin re-densification)

RESULTS FROM THE LATEST FACE TECHNOLOGY SCIENTIFIC STUDY²:

- Face aesthetics
- Increase lymphatic flow
- Improve radiance
- Age defying treatments
- Relax facial muscles
- Glow
- Replumping

How It Works

LPG® endermologie® is an FDA cleared, patented, and proprietary technique of cellular stimulation through reproducible mechanical massage.

It is 100% natural and effective, and targets the connective tissues of the body and face, including skin, muscle, blood and lymphatic circulation.

This mechanical massage technique provides a deep tissue mobilization within the Cellu M6® treatment head, with beauty, wellness, rehabilitation, sports and aesthetic medicine applications.

LPG® techniques are non-aggressive and non-invasive, with no downtime and no known side effects.

Using LPG® patented treatment heads, our devices are equipped with Independent Motorized Roller (I.M.R.) patented technology for the body, and Motorized Pulsating Flap (M.P.F.) patented technology for the face, along with an aspiration system that embraces a skinfold to gently stimulate the tissues of the body and the face.

The system painlessly stimulates fibroblasts; which produce collagen, elastin and hyaluronic acid.*

LPG® is the pioneer of advanced and patented technologies for the human body. endermologie® was the first technology worldwide to gain FDA clearance for the treatment of Cellulite. For over 30 years, LPG® has been developing non-invasive technologies for both natural beauty as well as advanced therapeutic treatments. The benefits of LPG® techniques have also been proven by over 145 reputable scientific studies.

Mobi M6® has innovative age defying treatment protocols that ensure clients receive the best in face endermologie®.

Clients will be amazed by how the Mobi M6® can help fight against wrinkles and sagging skin.

Results

endermologie® is a multi-session treatment with typical sessions lasting 15-35 minutes. The average patient will see improving results with the additional treatments. Once the initial results are achieved, additional optimization sessions can be used to maintain and improve upon the initial results.

Extensive research has shown that body endermologie® helps to tone and improve the skin's radiance, while reducing the appearance of cellulite. endermologie® is backed by more than 145 studies, and proven line of LPG® Cellu M6® machines. As a leader in the field, LPG® is the first device ever cleared by the FDA for the reduction in the appearance of cellulite.

RESULTS FROM THE LATEST FACE TECHNOLOGY SCIENTIFIC STUDY ²:

- o 80% increase in natural hyaluronic acid synthesis
- o 46% increase in natural elastin synthesis
- o 23% increase in firmness

² One-of-a-kind scientific study involving facial biopsies performed on 20 subjects by the Dermatology Department at the University Hospital of Besançon (France) under the supervision of Prof. Humbert, 2013.

Practice benefits

Endermologie® will grow your business

- o **Increase ROI with Repeat Business.** Endermologie requires multiple treatments, which means frequent client visits.
- o **Fertile, new revenue stream.** Treatments can easily be bundled into packages of four, six, eight, or more.
- o **Consistent Results** with no medical director needed
- o **Faster End Results** than other competitive technologies
- o **Multiple offerings** and a variety of treatment protocols
- o **Combine** with other treatment modalities
- o **Treatment Portability** is a snap at less than 24 lbs allows for treatment privacy in the comfort of one's own home, salon or clinic
- o **Treatment Versatility.** With mobi 6®, you can treat a broad range of indications, ages, and skin types.

Before & After

FAQS

- What is endermologie?

Endermologie® is an FDA-approved treatment that stimulates dormant cells within our skin to temporarily reduce the appearance of cellulite, improve local blood circulation, and firm the skin. Using a mechanized device with rollers and suction, endermologie® awakens the skin painlessly and naturally. To learn more about endermologie®, read our ["What is Body endermologie® and How Does it Work?"](#) blog.

Features Sizing Videos Order Forms Warranty Returns

Smirthwaite Mobi changer is a totally movable changing table that does not need to be installed or fixed. Its sleek and compact design makes it easy to move from room to room, making it a very cost-effective alternative for multi-transfer or multi-user scenarios. The Mobi changer, which is powered by electricity, has a large travel range and can be lowered and raised at the press of a button. Safe and appropriate working heights can be easily achieved, reducing the chance of caregiver back injury.

Smirthwaite mobile changing table was created with enough clearance for a variety of hoists. Its portability and stowaway side rails make it safe and easy to manoeuvre. The Mobi changer is the ideal solution for shifting from a bed, wheelchair, or toileting chair.

For dry locations, the Smirthwaite Mobi changer has a cream powder coated frame, whereas wet environments have a stainless steel frame.

Light indications

- **Red** - Battery needs immediate charging.
- **Orange** - Battery charging recommended.
- **Green** - Battery does not require charging. The Green light will be lit when the battery is being charged.

Features

- Mobile and maneuverable
- Unique stowaway side rails
- Sufficient clearance for hoists
- Available in Blue-colored upholstery only
- For easy handling, the height range is excellent

Available in Size two (power coated and stainless steel), additional colors and angled back accessory is available upon special request, please call us for specific details.
