About CarGurus

At CarGurus, we are all about making the online car shopping experience more transparent. We give you the data and information you need to make smart, empowered car shopping decisions.

Shopping for a car?

Our free shopping engine analyzes millions of car listings to give you instant guidance on the best deals in your area. Plug in your zip code and the car you want, and we show you which listings are great deals and which you should avoid. We invite you to contact the seller of any car you're interested in, and we give you information you can use in your negotiation.

Listing a car?

For private sellers, we offer a listing tool that helps you determine the right price at which to sell your car. If you're a dealer wishing to list your inventory at CarGurus, we can help you drive qualified, local car shoppers to your stores. Contact us at dealers@CarGurus.com to learn more about uploading your inventory to CarGurus.

Researching cars?

Our active user community shares everything from car and dealer reviews to guidance on car maintenance and troubleshooting and answers to under-the-hood questions. If you are looking for real-world insights and information from fellow car shoppers and fans, you'll find it at CarGurus.

Sharing information about cars?

The experiences and expertise shared by users is what drives our site. If you have opinions about the car you drive or the dealer you bought it from, the CarGurus community wants to hear from you. CarGurus has a deep heritage in online communities. In fact, CarGurus was founded in 2008 by Chief CarGuru, Langley Steinert, formerly Chairman/co-founder of TripAdvisor, Inc., the world's largest online travel website.
