

## Simple licensing. Flexible management.

Acrobat DC now supports named user license management for VMware, Citrix XenApp and XenDesktop. So it's easier than ever to assign and track user licenses from one centralized console — even for software running in virtual environments.

# Deployment and technical documentation

## [Adobe Document Cloud Enterprise Toolkit](#)

Access this toolkit online or download it to leverage the latest Adobe Document Cloud and Adobe Acrobat DC IT resources, including the Enterprise Administration Guide, release notes, the Preference Reference, and mobile and services resources for the enterprise.

## [Adobe Document Cloud Enterprise Administration Guide](#)

Efficiently manage your Document Cloud and Acrobat DC deployments. Support includes:

- Microsoft System Center Configuration Manager (SCCM) and Microsoft System Center Updates Publisher (SCUP)
- Apple Remote Desktop
- Citrix XenApp and XenDesktop
- Windows Terminal Server on Windows Server 2008
- Microsoft Application Virtualization (App-V)
- VMware Horizon
