#### Make waves for someone in need

Some people spend six hours a day gathering water, taking time away from work, school and family. ASUS is supporting Water.org to help change this, and you can help too. Access to safe water can transform lives—even entire communities. For a limited time, every purchase of an ASUS ZenBook will help provide 10 years of access to safe water.\*

\*The purchase of any one ASUS ZenBook helps Water.org provide access to safe water for one person in the developing world for 10 years. ASUS will donate USD 6.25 to Water.org for every ZenBook sold in the United States and Canada between November 1, 2017, and February 28, 2018, up to a maximum of 36,160 units.
