- RTV Silicone Instant Gasket Makers
- Gasket Makers & Sealants
- Adhesives & Cold Weld Compounds
- Threadlockers & Sealants
- Maintenance & Repair

Pro Seal Products CLEARLY BETTER®

Few adhesives are as effective or as useful as Pro Seal Automotive Products. Car repair is a necessary evil for most of us, but sometimes simple repairs can run into the hundreds if not thousands of dollars. Many expensive repair bills can be avoided with the versatile line of Pro Seal Automotive Products, including gasket replacement, radiator and gas tank repair, and hose and belt maintenance.

Pro Seal Automotive Products are designed to withstand the extremes common to every car engine. Heat, friction, vibration and compression conspire against many other adhesives, but Pro Seal holds strong and fast even under these adverse conditions. You never need to worry about your car when you use premium Pro Seal products.

Choose Pro Seal Automotive Products to meet all of your auto repair and maintenance needs. Do not trust no-name competitors with one of your most valued and valuable possessions. Accept no imitations; ask for Pro Seal Automotive products by name!

Pro Seal products are ideal for all your household projects:

Retaining Compounds
For use on retaining bearings, bushings, collars, gears and other cylindrical parts

Maintenance & Repair
We supply a variety of products for your varied industrial needs

Industrial Epoxies
Our epoxies cure quickly, and can be drilled, tapped or filed when cured
