Allstate, Farmers, Liberty, Travelers, USAA, Nationwide, Chubb, and many others. We take care of all the tedious paperwork, leaving you free to enjoy peace of mind for as little as \$5 per month (paid annually).

- **NO-FRILLS SECURITY:** We've kept things simple to avoid costly problems that can occur with more complex security systems. You can stick these sensors anywhere you like, from the family room to your office to the inside of a liquor cabinet, and you'll get prompt, reliable notifications if they're tripped. Unlike other professional monitoring systems, your rate will never jump if you add more sensors!
- **SET UP IN A SNAP:** You won't need any professional help to set up each Motion Sensor and connect your grid. Simply attach the batteries-included sensor using the extra-strength adhesive, and use the app to pair it with your phone. You'll be up and running in just a few minutes.
- **PICK YOUR PLAN:** If you just want a little peace of mind without bringing the professionals into things, Kangaroo Basic gives you that for FREE. You can have as many sensors as you like, and you'll get instant motion alerts directly to your phone. If you feel better having a professional monitoring agency to keep tabs on your home security, Kangaroo Complete offers that at just \$9 a month, or \$5 when paid annually.

Product description

Size:1 PACK

Affordable Intrusion Detection Is it time for you to invest in a security system, but you're not sold on complex, expensive camera setups? Do you need to secure several different locations, which makes multiple cameras impractical or expensive? Are you searching for a system you can quickly deploy without professional help, then forget about until activity is detected? Introducing Simple, Effective Motion Sensors from Kangaroo! With configuration that's a snap and an app that's equally innovative, this security system is perfect for anyone who wants to monitor for intrusions in a less obtrusive and more affordable way. Simple Setup: You don't even need tools; simply stick the sensor to an object using the extra-strength adhesive backing, pair it to your phone with the easy-to-use app, and you're up and running in seconds. Batteries included, and no hub required. Choose Your Monitoring: You can either monitor the system yourself, or have the pros do it for just \$5 per month paid annually. Receive Insurance Discounts: If you do go pro, you can take up to 20% off your homeowners or rental insurance with most carriers. Stick 'Em Anywhere: Whether it's just outside a lower window, next to the garage door or by a sensitive item anywhere inside a structure on your property, these sensors are up to the challenge. No Limits: No matter how many sensors you add, your professional monitoring rate will remain the same. Given the price for each sensor and our low-cost plans, the Kangaroo motion sensor system is a surprisingly affordable security solution for home or business. Effectiveness Guaranteed: If your system is not working as expected, we're right there to answer questions or provide a prompt refund/replacement. When You Need Effective, Affordable Security, Look No Further Than The Kangaroo – Order Today!

★★★★★ **Pet Smart, Super Effective, Easy To Use**

September 17, 2018
Size: 1 PACK | **Verified Purchase**

Our sweet mutt kept triggering our old motion sensor, which put us in the market for an alternative.

The Kangaroo's pet-rejection tech was not just simple and easy to install, it has our home security system working how it should. 10/10 would recommend.

Molly

★★★★★ **definitely recommend**

September 20, 2018
Size: 1 PACK | **Verified Purchase**

I ordered the motion sensor with Prime and it was delivered to my door in less than 48 hours, incredibly easy to install and sync to the phone app! I have had zero technical issues in the week that I have had it. When the motion sensor picks up movement both the app and hey kangaroo staff are quick to respond! I definitely would recommend this as an incredibly easy, safe and affordable way to ensure the safety of your home and loved ones!

★★★★★ **Safe and simple!**

September 19, 2018
Size: 1 PACK | **Verified Purchase**

It is obvious that Kangaroo approached development and manufacturing of the product very seriously, from design to functionality and ease of use. Works trouble-free! I left home for a couple of days and on my return, I forgot to turn it off, instantly it was a message that motion was detected! App is super easy to use. Safe and simple!

★★★★☆ **Kangaroo sensor works great, easy-to-use app**

October 11, 2018

Size: 1 PACK | [Verified Purchase](#) | [Early Reviewer Rewards](#) ([What's this?](#))

App was a little persnickety when I was setting it up, and it wouldn't let me enter some personal information. I finally managed to input it through settings, but the app still tells me it needs more info for my home address even though every field is filled out. The app itself works well, though.

That being said, this is a great sensor that alerted me every time it detected motion. I installed it as directed since we have pets, but it alerted me every time our pet sitter entered the house while we were gone. Only problem is that the sticky tape on the back isn't very strong and the until fell off the wall after a couple days. Will reinstall with better sticky tape or the included screws.

Definitely recommend getting one of these. Wish it came with a video camera.

★★★☆☆ **Meh. Could be better**

November 3, 2018

Size: 1 PACK | [Verified Purchase](#)

I was super excited about getting a security system for my apartment!

I got it in the mail on the 31st and had a hard time setting it up. Every time I went to enter my phone number I had to try again.

Tried entering is several different ways and all the ways the customer services representatives suggested.

It took the 2 days to get it to work through their app maintenance people (or whatever they are called).

Finally got logged in and was a little disappointed because I thought it had a camera in it, but is only motion activated.

It takes 10 minutes for the alarm to set.

It says I can add people to my household but won't send the invite to my husband.

Also it takes like a minute to actually send me a notification to my phone that they detected a motion.

AND they don't have it set up where if you don't respond to turn the alarm off in time (which there is [Read more](#))

★★★★☆ **Overall Great Security System, Excited for New Products**

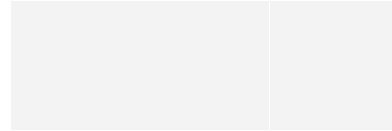

January 7, 2019

Size: 1 PACK | [Verified Purchase](#)

After searching for months apoun months for a security system that would meet all of my needs, i realized, one doesn't exist. When i finally came apoun Kangaroo, I was surprised by it's low price tag and positive reviews. So i finally decided to "cave in" and just buy it. I have been nothing more than impressed with the ease of use, amazing customer support, and great app interface. Installing it took

about two seconds, and the pet detection is one of the simplest things to use. When I had a few problems with the family sharing for arming/disarming the system, customer service was responsive, kind, and helpful. (Special shout-out to Jon for helping me with many problems!!) They even sent me several more free stickers upon request! Could not be happier! The app is very simple to use, although it does lack a home screen widget, which I'd like to see in the future. Although I don't use the pro-monitoring, I can tell you that the price tag is considerably low and if the customer service I've been getting is consistent, then it must be amazing. Overall, the motion detection is "okay." Sometimes the response can be a little delayed (by one or two minutes) from the time motion is detected and when I get an alert on my phone, but it seems to be accurate and my dogs do not trigger it. I haven't gotten any false alarms, so it seems to be pretty good. I am overall just very happy
