

## How resolve works

**We audit, review, and negotiate medical bills** to identify errors and problems and find you up to 90% savings. Items we look for and correct include:

- Balance billing
- Insurance claims denials
- Billing and coding errors
- Price gouging and price based negotiation
- Financial Aid opportunities

## How it works

### 1 Gather

We gather all relevant data from healthcare providers and insurance companies (even if the hospital or insurance company doesn't want us to).

### 2 Audit

We then audit this information and build a custom strategy to maximize your savings.

### 3 Reduce

Our expert negotiators use their training, data driven insights, and structured process born through decades of experience to resolve your medical bills.

## The resolve advantage

- **Decades of Experience** Our advocates and expert negotiators combined have decades of experience in reducing medical bills.
- **Data-Driven Insights** We draw from millions of data points on hospital costs, coding standards, and insurance claims.
- **Efficient Process** We've created a process that ensures we act efficiently and completely – so nothing drops through the cracks.
- **Trained Negotiators** All of our advocates are trained using techniques taught at the top business and law schools in America to ensure that we maximize savings.

### Pricing That Works For You: \$99 + 10% of Savings

We charge a \$99 access fee for us to conduct an in depth analysis and create a customized strategy for saving you money. We then charge 10% of any savings that we find (with a \$2,000 minimum total fee).

In the rare cases we save less than \$4,000, the minimum fee does not apply and instead resolve will charge 50% of savings found
