## Online Orders Delayed 3-4 Weeks

We are working around the clock to procure the products you need. We've also significantly increased our staffing levels to fill online orders faster. We established online purchase limits on certain items to ensure that the most products are available to the greatest number of customers. Even with these counter measures in place, the increase in demand has delayed our delivery times to 3-4 weeks. Please know if you order online, we will reserve those items specifically for you and will deliver them as soon as possible. We appreciate your patience and understanding as we continue to work on replenishing merchandise and fulfilling orders.
