## About this item

- ☒ Annual subscription includes daily fertility statuses, so you'll know if today is a red (fertile) day or a green (non-fertile) day, determined by our fertility finding algorithm. This uses temperature data to find where you are in your cycle, predicting and confirming fertile days.
- ☒ Your subscription also includes a basal body thermometer, this measures body temperature to 2 decimal places - this is more sensitive than a regular fever thermometer as it detects shifts in temperature that happen during the menstrual cycle. Take your temperature when you wake up, enter it into the app and you'll receive a fertility status for the day.
- ☒ The world's first birth control app, hormone-free and tailored to you, NC° Birth Control finds your fertile days so you can effectively prevent pregnancy. Discover your unique cycle with 100% hormone-free birth control.
- ☒ NC° Birth Control is a regulated medical device that's cleared by the US FDA, based on the analysis of over 15,000 women. The study found NC° Birth Control to be 93% effective with typical use and 98% effective with perfect use.

Ana Truty review

The code did not work!! It kept prompting me to pay.

Reviewed in the United States on April 29, 2022

Verified Purchase

I entered the code and according to the app there was an error. I tried getting back to the app after utilizing the code and receiving a receipt and the app kept asking me to purchase the subscription again. If you are going to charge people \$89 dollars for an app, you should have a good working app. Costumer Service Sucks! Btw

Never felt more in tune with my body!

Reviewed in the United States on November 12, 2021

Its an easy to use app and the best thing is that its accurate while being side effect free! I am very happy with my decision to go hormone free and even happier to feel part of a community who pioneers women's health.
