

# THE GLOBAL ECONOMY BELONGS TO EVERYONE.

Worldcoin is building the world's largest identity and financial network as a public utility, giving ownership to everyone.

We aim to create universal access to the global economy regardless of country or background, accelerating the transition to an economic future that welcomes and benefits every person on the planet.

## We believe

in the inherent worth and equality of every individual  
in the right to personal privacy  
in open and public collaboration

## How it works

### World ID

digital identity that proves you are a real and unique person while fully protecting your privacy.

### Worldcoin

the first token (WLD) to be globally and freely distributed to people, for both utility and future governance, just for being a unique individual.

### World App

enables payment, purchases and transfers globally using the Worldcoin token, digital assets and traditional currencies.

## Who we are

Worldcoin is an open-source protocol, supported by a global community of developers, individuals, economists and technologists committed to expanding participation in, and access to, the global economy. The [Worldcoin Foundation](#) is the steward, and will

support and grow the Worldcoin community until it becomes self-sufficient. [Tools for Humanity](#), helped launch Worldcoin, and currently serve as advisors to the Foundation and operators of the World App. Currently in beta, Worldcoin expects to launch in the first half of 2023.

**Good app**  
Very nice and simpel

★☆☆☆☆  
leomartinszz, 17/01/2022

**Pure scam**  
I got stopped by one of theses guys walking around with some kind of ball things and they told me I could exchange my "world coins" into 500 kroner/ 60 dollars on first of January. [more](#)

### App Privacy
